The Aeneid Virgil, 1990-06-16 Fitzgerald's translation is so decisively the best modern Aeneid that it is unthinkable that anyone will want to use any other version for a long time to come New York Review of Books Virgil's great epic transforms the Homeric tradition into a triumphal statement of the Roman civilizing mission translated by Robert Fitzgerald **Virgil the Aeneid** Robert Fitzgerald, 1983 *Why Vergil?* Stephanie Quinn, 2000 An anthology of 43 classic essays and poems on the Roman poet Quinn's position is that his work continues to be compelling and flexible enough to support a wide range of interpretations and perspectives In addition to a bibliography she provides a lengthy introduction and conclusion that tackle the question of the book's title *Why Vergil* Further she juxtaposes the first few lines of the Aeneid in its original Latin with five translations and includes a synopsis of it and a list of dates for quick reference She has not indexed the volume *A Version of Aeneid IV* Virgil, Gerald Augustus Robert Fitzgerald, 1894 The Aeneid Virgil, 1965 *Shakespeare's Caliban* Alden T. Vaughan, Virginia Mason Vaughan, 1991 Shakespeare's Caliban examines The Tempest's savage and deformed slave as a fascinating but ambiguous literary creation with a remarkably diverse history The authors one a historian and the other a Shakespearean explore the cultural background of Caliban's creation in 1611 and his disparate metamorphoses to the present time **The Life and Writing of Fray Angélico Chávez** Ellen McCracken, 2010-01-16 Winner of the Southwest Book Award from the Border Regional Library Association As a teenager Manuel Chávez 1910-1996 left his native New Mexico for over a decade of study at the St Francis Seraphic Seminary in Cincinnati Ohio and other midwestern institutions Included in his curriculum was an introduction to literature and the arts that piqued an interest that would follow him the remainder of his life Upon returning to New Mexico he was ordained Fray Angélico Chávez and would become one of New Mexico's most important twentieth century writers In *The Life and Writing of Fray Angélico Chávez* Ellen McCracken provides a literary biography that includes a deep look into the intellectual and cultural contributions of this Renaissance man McCracken moves chronologically through a substantial body of work that includes fiction poetry plays essays spiritual tracts sermons historical writing translation painting church renovation and journalism From the prolific creativity of the years of his first assignment in Peña Blanca to the decades he spent researching Hispano genealogy in New Mexico McCracken traces Chávez's complex and changing identity as an ethnic American and religious subject who was also an historian artist creative writer and preservationist The year 2010 will mark the centenary of Fray Angélico Chávez's birth and this volume will serve as a fitting tribute Cyberformalism Daniel Shore, 2018-06-15 Linguistic forms Search Studies Was it for this and the study of influence Act as if and useful fictions WWJD and the history of imitatio christi Milton's depictives and the history of style Conclusions Shakespeare's construction God is dead long live philology The Journey toward God in Augustine's Confessions Carl G. Vaught, 2012-02-01 This detailed discussion of Augustine's journey toward God as it is described in the first six books of the Confessions begins with infancy moves through childhood and adolescence and culminates in youthful

maturity In the first stage Augustine deals with the problems of original innocence and sin in the second he addresses a pear stealing episode that recapitulates the theft of the forbidden fruit in the Garden of Eden and confronts the problem of sexuality with which he wrestles until his conversion and in the third he turns toward philosophy only to be captivated successively by dualism skepticism and Catholicism Augustine's journey exhibits temporal spatial and eternal dimensions and combines his head and his heart in equal proportions Vaught shows that the Confessions should be interpreted as an attempt to address the person as a whole rather than through our intellectual or volitional dimensions exclusively The passion with which Augustine describes the end of his journey is reflected best in a sentence found in the opening chapter of the text You have made us for yourself and our heart is restless until it rests in you Interpreting this statement Carl G Vaught presents a more emphatically Christian Augustine than is usually found in contemporary scholarship Refusing to view Augustine in an exclusively Neoplatonic framework Vaught holds that Augustine baptizes Plotinus just as successfully as Aquinas baptizes Aristotle It cannot be denied that Ancient philosophy influences Augustine decisively Nevertheless he holds the experiential and the theoretical dimensions of his journey toward God together as a distinctive expression of the Christian tradition

**Defaming the Dead** Don Herzog,2017-03-28 Do the dead have rights In a persuasive argument Don Herzog makes the case that the deceased's interests should be protected This is a delightfully deceptive work that starts out with a simple seemingly arcane question can you libel or slander the dead and develops it outward tackling larger and larger implications until it ends up straddling the borders between law culture philosophy and the meaning of life A full answer to this question requires legal scholar Don Herzog to consider what tort law is actually designed to protect what differences death makes and what differences it doesn't and why we value what we value Herzog is one of those rare scholarly writers who can make the most abstract argument compelling and entertaining

**Literature and the Metaphoric Universe in the Mind** Nicolae Babuts,2017-07-05 Nicolae Babuts believes that the study of metaphoric thought and literature can be enriched by the

application of recent discoveries from neuroscientific experiments He maintains that metaphors are neither linguistic formations nor conceptual formations but instead the product of association of images and language They are a matter of vision Memory is an essential component in the creation of meaning and is the way the mind receives messages from the outside world In this process of transferring data from the outside world the mind's overriding tendency is to integrate and interpret Thus incoming messages are recognized and given meaning whether they are in harmony with the inner world of the mind or in conflict with it Babuts argues that the literature we read is related to our perception of reality And reality has two identities the physical identity of the outside world and its symbolic identity within memory The symbolic identity of the outside world is represented internally by the metaphoric universe in the mind

**Political Aesthetics in the Era of Shakespeare** Christopher Pye, 2020-06-15 The turn to political concerns in Renaissance studies beginning in the 1980s was dictated by forms of cultural materialism that staked their claims against the aesthetic dimension of the work Recently however the more robustly political conception of the aesthetic formulated by theorists such as Theodor Adorno and Jacques Rancière has revitalized literary analysis generally and early modern studies in particular For these theorists aesthetics forms the crucial link between politics and the most fundamental phenomenological organization of the world what Rancière terms the distribution of the sensible Taking up this expansive conception of aesthetics *Political Aesthetics in the Era of Shakespeare* suggests that the political stakes of the literary work and Shakespeare's work in particular extend from the most intimate dimensions of affective response to the problem of the grounds of political society The approaches to aesthetic thought included in this volume explore the intersections between the literary work and the full range of concerns animating the field today political philosophy affect theory and ecocritical analysis of environs and habitus

**Memories of the Classical Underworld in Irish and Caribbean Literature** Madeleine Scherer, 2021-09-20 *Classical Memories* is an intervention into the field of adaptation studies taking the example of classical reception to show that adaptation is a process that can be driven by and produce intertextual memories I see classical memories as a memory driven type of adaptation that draws on and reproduces schematic and otherwise decontextualised conceptions of antiquity and its cultural exports in broadly speaking the twentieth and twenty first centuries These memory driven adaptations differ often in significant ways from more traditional adaptations that seek to either continue or deconstruct a long running tradition that can be traced back to antiquity as well as its canonical points of reception in later ages When investigating such a popular and widespread set of narratives characters and images like those that remain of Graeco Roman antiquity terms like adaptation and reception could and should be nuanced further to allow us to understand the complex interactions between modern works and classical antiquity in more

detail particularly when it pertains to postcolonial or post digital classical reception In *Classical Memories* I propose that understanding certain types of adaptations as intertextual memories allows us to do just that

**Material Inspirations** Jonah Siegel, 2020-10-14 This book is a study of the complex relationship between matter and idea that shaped the nineteenth century culture of art and that in turn determined the course of still current accounts of art s nature and value Fundamental questions about the effects of material conditions on the creation and reception of art arose as early as the nineteenth century and put important pressures on later eras The place of class distinctions in the making and reception of art the relationship between copy and original the effects of display on art appreciation even the role of pleasure itself this book treats these and related issues as productive conceptual challenges with an unresolved relationship to matter at their core Drawing on recent scholarship on the history of art and its institutions *Material Inspirations* places cultural developments such as the emergence of new sites for exhibition and the astonishing proliferation of printed reproductions alongside a wide range of texts including novels poems travel guidebooks compendia of antiquities and especially the great line of critical writing that emerged in the period The study vivifies a dynamic era which is still too often seen as static and unchanging by emphasizing the transformations taking place throughout the period in precisely those areas that have appeared to promise little more than repetition or continuity collection exhibition and reproduction The book culminates with the two great critics of the period John Ruskin and Walter Pater but it also includes close analysis of other prose writers as well as poets and novelists ranging from William Blake to Robert Browning George Eliot to Henry James Significant developments addressed include the vogue for the representation of Old Masters in the first half of the century ongoing innovations in the creation and diffusion of reproductions and the emergence of the field of art history itself At the heart of each of these the book identifies a material pressure shaping concepts texts and works of art

**Looking for the Good War** Elizabeth D. Samet, 2021-11-30 A remarkable book from its title and subtitle to its last words A stirring indictment of American sentimentality about war Robert G Kaiser *The Washington Post* In *Looking for the Good War* Elizabeth D Samet reexamines the literature art and culture that emerged after World War II bringing her expertise as a

professor of English at West Point to bear on the complexity of the postwar period in national life She exposes the confusion about American identity that was expressed during and immediately after the war and the deep national ambivalence toward war violence and veterans all of which were suppressed in subsequent decades by a dangerously sentimental attitude toward the United States exceptional history and destiny Samet finds the war s ambivalent legacy in some of its most heavily mythologized figures the war correspondent epitomized by Ernie Pyle the character of the erstwhile G I turned either cop or criminal in the pulp fiction and feature films of the late 1940s the disaffected Civil War veteran who looms so large on the screen in the Cold War Western and the resurgent military hero of the post Vietnam period Taken together these figures reveal key elements of postwar attitudes toward violence liberty and nation attitudes that have shaped domestic and foreign policy and that respond in various ways to various assumptions about national identity and purpose established or affirmed by World War II As the United States reassesses its roles in Afghanistan and the Middle East the time has come to rethink our national mythology the way that World War II shaped our sense of national destiny our beliefs about the use of American military force throughout the world and our inability to accept the realities of the twenty first century s decades of devastating conflict

*Exuberant Apotheoses: Italian Frescoes in the Holy Roman Empire* Daniel Fulco, 2016-04-01 From the late seventeenth through the mid eighteenth centuries large scale Italian frescoes soared in popularity as nobles in the German principalities of the Holy Roman Empire constructed new palaces at an unprecedented rate They competed with one another to produce lavish decorative schemes that expressed their claim to princely power and political authority Whereas previous art historians have primarily focused on iconographic and stylistic issues and generally treated these programs as individual commissions of regional courts this book places the works of art within their broad cultural and historical contexts during the Enlightenment This monograph explains how rulers gradually shifted from emphasizing military heroism to stressing their cultivation of the arts and sciences and addresses how expressing membership in a specifically European civilization emerged as an integral visual theme and a key ambition of the German nobility
