

Conceptual Physics POGIL: Universal Gravitational

We have learned about weight as the gravitational force exerted on you by the planet you're standing on, usually the Earth. But gravity is a force exerted by *all* masses on each other, not just you and the Earth. In this sense, we say that the gravitational force is *universal*. In this POGIL we will learn about what influences the magnitude of the gravitational force.

Newton's Law of Universal Gravitation

All masses in the universe are attracted to each other by a gravitational force: planets, stars, people, doughnuts...everything that has mass. In the diagram below, we see two masses, labeled m_1 and m_2 , separated by a distance d .

The gravitational force between the two masses is always attractive...just like love.

The magnitude of the gravitational force F between two masses is directly proportional to the product of the masses m_1 and m_2 and inversely proportional to the square of the distance d between the masses. This relationship is summed up by the equation

$$F = G \frac{m_1 m_2}{d^2}.$$

G is a constant of proportionality, called the Universal Gravitational Constant, equal to $6.67 \times 10^{-11} \text{ N} \cdot \text{m}^2/\text{kg}^2$. This equation is known as Newton's Law of Universal Gravitation. It was discovered by the same Newton who gave us our trusty three laws of motion.

1. The diagram below shows a 10 kg mass and a 70 kg mass separated by a distance of 1 m.

- (a) On each mass above, draw arrows indicating the direction of the force on each mass.

- Arrows should be drawn towards the other mass equal in length

- (b) Determine the magnitude of the gravitational force on the 10 kg mass.

- $F = 4.7 \times 10^{-7} \text{ N}$

- (c) Determine the magnitude of the gravitational force on the 70 kg mass.

- $F = 4.7 \times 10^{-7} \text{ N}$

- (d) Which mass exerts the greater gravitational force on the other? Why is this so?

- According to Newton's 3rd Law, they exert the same force on each other.

Universal Gravitation Pogil

CH Cherryholmes

Universal Gravitation Pogil:

Immerse yourself in heartwarming tales of love and emotion with Crafted by is touching creation, Tender Moments: **Universal Gravitation Pogil** . This emotionally charged ebook, available for download in a PDF format (PDF Size: *), is a celebration of love in all its forms. Download now and let the warmth of these stories envelop your heart.
