Advances and New Perspectives in Higher Education Quality Maria Esteban, Ana B. Bernardo, Ellian Tuero Herrero, Joana R. Casanova, Antonio Cervero, 2024-04-22 The changes that have occurred in today's society require Higher Education to be highly efficient in the academic and professional preparation of young people who enter university For that reason universities around the globe have been advocating in recent years for an improvement in the quality of teaching learning processes As an example the World University Consortium 2023 currently presents among its most urgent and priority objectives the identification of the best evaluative practices of the educational processes that are carried out at the University as well as the recognition of the actions aimed at improving educational processes based on scientific evidence In this way it seeks to distinguish all those educational actions that are at the forefront going from actions at the micro level such as individual teaching practices in the classroom such as the application of the flipped classroom or the use of augmented reality up to actions taken at the macro level such as those proposed in the Horizon Europe 2020 strategy

College Pricing, 2015. Trends in Higher Education Series Jennifer Ma, Sandy Baum, Matea Pender, D'Wayne Bell, 2015

The increases in tuition and fee prices in 2015 16 were like the increases in the two preceding years relatively small by historical standards However the very low rate of general inflation makes this year s increases in college prices larger in real terms than those of 2014 15 and 2013 14 Significantly and perhaps counter to public impressions price increases are not accelerating over time However the average published tuition and fee price of a full time year at a public four year institution is 40% higher after adjusting for inflation in 2015 16 than it was in 2005 06 The average published price is 29% higher in the public two year sector and 26% higher in the private nonprofit four year sector than a decade ago This document reports on the prices charged by colleges and universities in 2015 16 how prices have changed over time and how they vary within and across types of institutions states and regions Information is also included on the estimated net prices students and families pay after taking financial aid into consideration Data on institutional revenues and expenditures and on changing enrollment

patterns over time supplement the data on prices to provide a clearer picture of the circumstances of students and the institutions in which they study For the companion report Trends in Student Aid 2015 Trends in Higher Education Series ED572541 For the report from the previous year Trends in College Pricing 2014 Trends in Higher Education Series see ED572551

Trends in College Pricing, 2014. Trends in Higher Education Series Sandy Baum,Jennifer Ma,D'Wayne Bell,Diane Cardenas Elliott,2014 Between 2013 14 and 2014 15 average published tuition and fee prices increased by 2 9% for in state students in the public four year sector by 3 3% for out of state students in the public four year sector and for in district students at public two year colleges and by 3 7% at private nonprofit four year institutions These increases are higher than the 2 0% increase in the Consumer Price Index between July 2013 and July 2014 but in all sectors these price increases are lower than the average annual increases in the past five years the past 10 years and the past 30 years This document reports on the prices charged by colleges and universities in 2014 15 how prices have changed over time and how they vary within and across types of institutions states and regions Also included is information on the estimated net prices students and families pay after taking financial aid into consideration Data on institutional revenues and expenditures and on changing enrollment patterns over time supplement the data on prices to provide a clearer picture of the circumstances of students and the institutions in which they study For the companion report Trends in Student Aid 2014 Trends in Higher Education Series see ED572552 For the report from the previous year Trends in College Pricing 2013 Trends in Higher Education Series see ED549554
