This book reveals the latest research based understanding of the entrepreneurial activities of women in sub Saharan Africa. Specially invited subject experts present salient dimensions of entrepreneurship by African women from environmental factors to motivations and influencers as well as financial and non financial constraints and highlight the significant role of cultural differences. This book provides a mixture of theoretical conceptual and empirical research and fills the knowledge gap by presenting a wide range of opportunities and challenges faced by sub Saharan African women entrepreneurs. This book will help policy makers and academic researchers in understanding the role of institutions and entrepreneurship policy in building a thriving entrepreneurial ecosystem in the region. Africa Insight, 1999. Sustainable Options J. N. Blignaut, Martin P. De Wit, 2004. This well researched important text argues a case for the use of environmental resource economics (ERE) as an analytic framework for the conceptualisation and design of sustainable policy options. Sustainable options integrates economic theories and concepts on the one hand with social and environmental challenges on the other. Applying ERE in a developing context like that of South Africa is critical given the country's dependence on natural and environmental assets. The sustainability of the economy and the welfare of the country's people are at stake. Environmental management is therefore an economic concern. This is illustrated clearly in the first section of the book which examines a broad range of welfare indicators thus providing an overview of the macroeconomic performance of the South African economy. Sustainable options is not only for academics and students from the economic, political and biophysical sciences. The book's hands on approach and explicit linkages to the real world of economic development makes it invaluable for policy makers and environmental practitioners faced with the daunting task of making trade offs between developmental and environmental concerns. Machine-to-machine (M2M) Communications Carles Anton-Haro, Mischa Dohler, 2014-12-23. Part one of Machine to Machine M2M Communications covers machine to machine systems architecture and components. Part two assesses performance management techniques for M2M communications. Part three looks at M2M applications, services and standardization. Machine to machine communications refers to autonomous communication between devices or machines. This book serves as a key resource in M2M which is set to grow significantly and is expected to generate a huge amount of additional data traffic and new revenue streams underpinning key areas of the economy such as the smart grid, networked homes, healthcare and transportation. Examines the opportunities in M2M for businesses. Analyses the optimisation and development of M2M communications. Chapters cover aspects of access, scheduling, mobility and security protocols within M2M communications. **Reinventing HR** Cecile Schultz, 2015-03-30. Revolutions are typically huge and dominating events in the world's history accompanied by radical visible change. The current revolution is in this regard silent yet change is everywhere. The changes in organisational life are affecting management and the way in which businesses are being run. In this volatile context the Human Resource (HR) function needs to be strategically correctly positioned. It needs to be reinvented and positioned in terms of all aspects of people and relations in an organisational context with clearly identified main
