Central Valley Project Tim Stroshane,2016-10-27 This book is an account of how water rights were designed as a key part
of the state s largest public water system the Central Valley Project Along sixty miles of the San Joaquin River from Gustine
to Mendota four corporate entities called exchange contractors retain paramount water rights to the river Their rights
descend from the days of the Miller Lux Cattle Company which amassed an empire of land and water from the 1850s through
the 1920s and protected these assets through business deals and prolific litigation Miller Lux s dominance of the river relied
on what many in the San Joaquin Valley regarded as wasteful irrigation practices and unreasonable water usage Economic
and political power in California s present water system was born of this monopoly on water control Stroshane tells how
drought and legal conflict shaped statewide economic development and how the grand bargain of a San Joaquin River water
exchange was struck from this monopoly legacy setting the stage for future water wars His analysis will appeal to readers
