Xunpeng (Roc) Shi, Phoumin Han, Qiang Ji, Farhad Taghizadeh-Hesary, Dayong Zhang, 2021-06-04 *Global Economic Prospects, Volume 6, January 2013* World Bank, 2013 \_x000D\_ Fragile rebound after mid year turmoil \_x000D\_ Financial markets conditions have improved markedly since mid 2012 due to national and EU wide measures to improve fiscal sustainability and the augmentation of measures that the European Central Bank ECB would take in defense of the euro but so far the so far economic growth has not rebounded as sharply partly because of policy induced uncertainty which has contributed to keep business sector confidence low \_x000D\_ While growth showed signs of accelerating in Q3 of 2012 including in major middle income countries such as Brazil and China uncertainties being generated by the US election and fiscal cliff concerns coupled with tensions between China and Japan over competing land claims cut into Q4 growth in high income and developing countries [Global Economic Prospects, Volume 9, June 2014](#) World Bank World Bank, 2014-06-10 The global economy got off to a bumpy start this year but growth in 2015 and 2016 looks to be broadly on track Projections for developing countries in 2014 have been down downgraded by 0.5 percentage points to 4.8 percent mainly reflecting weak first quarter growth in the US due to weather and the conflict in Ukraine Going forward growth is projected to firm to 5.3 and 5.5 percent in 2015 and 2016 supported by easy global financial conditions and rebounding exports as high income countries continue to recover under the influence of a reduced drag from fiscal consolidation and improving labor markets Financial conditions will eventually tighten and when they do there is risk of further volatility Most developing countries are

in good fiscal and financial shape but where vulnerabilities remain countries need to tighten policy to reduce the potential impact of external shocks Overall growth for developing countries will be solid but not strong enough to generate the income and employment gains needed to eliminate poverty by 2013 As a result countries need to focus on structural reform in order to lift growth in an enduring and sustainable manner
