Adamski, 1998 *Teaching Poetry in a Digital World* Stefani Boutelier, Sarah J. Donovan, 2025-04-30 Teaching Poetry in a Digital World supports English language arts ELA educators for grades 6-12 to incorporate digital literacy in their classrooms by teaching the reading and writing of poetry. In an increasingly digital age, educators must adapt to meet the changing needs and interests of their students by incorporating technology into the classroom. This book introduces its audience to the ePoetry Framework. This framework demonstrates how poetry might present itself in a literacy-based unit with the benefit of a technology medium to share with the world. Examples include teaching a poem incorporating haiku with the creation of GIFs and ethically discussing AI with nonet poems. With adaptable lesson plans and assessments as well as educator examples, the book will inspire teachers to create intentional student-centered ePoetry units. The book is aligned with ELA literacy standards, International Society for Technology in Education (ISTE) educator standards, and National Council of Teachers of English (NCTE) position statement for integrating technology into ELA classrooms. It is a key resource for secondary school educators teaching ELA creative writing and digital media. Scouting Notebook* Wanceulen Notebooks, 2019-08-23 Write the players' data of the matches you see. REGISTRATION TEMPLATES FOR 30 VOLLEYBALL MATCHES. How to use it: Each MATCH consists of 4 registration pages. The first two pages are for the registration of the players of each team: names, numbers, demarcation, and basic general characteristics of each player. At the bottom of the page, there are playfields to help us graphically place players. The next two pages (3 and 4) include a table with boxes so you can take the notes you consider about the players that have excelled in each team and about which you think it is worth expanding the information basic that you have written down in the previous record sheet. From each game, you can also record the reference data: teams participating, category, and competition day and time and field where the game is played. It supposes a useful registry of data that you can file before computerizing them or before passing them to the archives or databases where you store the information of your observations. **Volleyball** Y.
