Within ecosystems, organisms interact with each other in various ways. Some interactions are competitive, some are predatory, and some are mutually beneficial.

- **Competitive interactions** occur when organisms compete for shared resources.
- **Predatory interactions** occur when one organism preys on another organism.
- **Mutually beneficial interactions** occur when organisms help each other survive.

Read the following descriptions of organism interactions. Determine whether each is an example of a competitive, predatory, or mutually beneficial interaction. Then explain your reasoning.
