Maureen Callahan's deft reporting and stylish writing have created one of the all time great serial killer books sensitive chilling and completely impossible to put down

Ada Calhoun author of *St Marks Is Dead* Ted Bundy John Wayne Gacy Jeffrey Dahmer The names of notorious serial killers are usually well known they echo in the news and in public consciousness But most people have never heard of Israel Keyes one of the most ambitious and terrifying serial killers in modern history The FBI considered his behavior unprecedented Described by a prosecutor as a force of pure evil Keyes was a predator who struck all over the United States He buried kill kits cash weapons and body disposal tools in remote locations across the country Over the course of fourteen years Keyes would fly to a city rent a car and drive thousands of miles in order to use his kits He would break into a stranger's house abduct his victims in broad daylight and kill and dispose of them in mere hours And then he would return home to Alaska resuming life as a quiet reliable construction worker devoted to his only daughter

When journalist Maureen Callahan first heard about Israel Keyes in 2012 she was captivated by how a killer of this magnitude could go undetected by law enforcement for over a decade And so began a project that consumed her for the next several years uncovering the true story behind how the FBI ultimately caught Israel Keyes and trying to understand what it means for a killer like Keyes to exist A killer who left a path of monstrous randomly committed crimes in his wake many of which remain unsolved to this day *American Predator* is the ambitious culmination of years of interviews with key figures in law enforcement and in Keyes's life and research uncovered from classified FBI files Callahan takes us on a journey into the chilling nightmarish mind of a relentless killer and to the limitations of traditional law enforcement
