Time Allowed: 03 Hours

- NOTE:**
- Attempt all Questions.
 - All the parts (if any) of each Question must be attempted at one place instead of at different places.

- Challenges faced by the agriculture sector in Pakistan

 - The importance of water conservation in Pakistan
 - The role of international organizations in promoting peace and security

- Q-2:** Make a precis of the following paragraph and assign a suitable title. (25)

The notion of free media independent of the state was designed to allow the media industry room for research, leading to objective dissemination of information. The purpose of keeping it independent of the state was not just to emphasize the state but any political commercial entity that could influence it. While the media can claim to be free of government influence, the media industry itself is now a corporation churning out profits that keeps its operations running. As in any commercial entity the industry, to ensure its survival, will go to any lengths to keep the industry relevant for the audiences. Also, in order to remain very much in vogue free media, controls the flow of information, regulating it, while staying unaccountable to a more qualified authority. Controlling the flow of information to the people, in essence makes them the most important sector of the service industry. The media shaping political views is the most dangerous manifestation of the knowledge acquisition on part of the common audience, good research has now been replaced by under searched and often misleading programs and journalistic opinions. The art of governance and efficient politics has always involved a controlled flow of information from governing authorities to the public. This may seem a rather sinister inference but democracy was, apparently, never meant to be exercised in letter and spirit. If the governing authorities are themselves not qualified to handle such information, the media is to import transparency into the covert aspects of governance, however this process ought to be performed in a morally acceptable and objective way leaving the audience to interpret most parts of the information for themselves. (346 words)

- Q-3:** Change the Voice of any FIVE of the following. (3x5)

- The chef is cooking a meal.
- She sings a song.
- The dog chased the cat.
- Play the piano please.
- Pakistan won the cricket match.
- The plants are watered by the gardener.
- Homework is assigned by the teacher.
- The wall is being painted by the painter.
- The park was played in by the children.
- The car is fixed by the mechanic.

- Q-4:** Change the narration of any FIVE of the following. (3x5)

- "I am busy," she said.
- They said that they would go the next day.
- "He can play the guitar," Aslam said.
- She asked me "Do you like chocolate?".
- The student requested that the window be opened.
- He announced that he had finished his homework.
- She warned me "Don't touch that."
- "How are you?" he inquired.
- She said, "I will help you come what may."
- My father confessed. "I didn't see him yesterday."

- Q-5:** Translate the following paragraph into Urdu (15)

The people living in the areas supplied with electricity are quite familiar with the term load-shedding. There is hardly any area in our country which is not afflicted by load-shedding. Load-shedding means the discontinuation of the supply of electricity. Load-shedding occurs when the generation of power is less than the demand or when the distribution of electricity is unplanned. It creates problems of far-reaching consequences in the socio-economic development of a country.
