Taylor,2022-09-01 Glacier Girl The Quest The Prize is a memoir based on the journals of seven expeditions co led by Richard Taylor and Pat Epps Taylor s journals cover eleven years of the search and retrieval of the P 38 Lightning later called Glacier Girl On her way to war in 1942 she and seven other planes in their squadron ran out of gas and crash landed on the Greenland ice cap After a two week wait all of the pilots and crew were rescued no one left behind They then went back to war and the eight planes were abandoned

Eventually they became known as the Lost Squadron Thirty nine years later in 1981 Pat and Richard heard about this aviation event and formed the Greenland Expedition Society GES They teamed up with a couple of other pilots and headed north to find the planes Their ambitious plan was to put fresh gas in the tanks attach skis and fly as many of the fighters as they could back to the States What greater way to store airplanes than in a giant deep freeze As it turned out the planes turned out to be difficult to find The first four expeditions to the ice cap ended were conspicuous mission failures In situ lessons in Arctic survival are not offered without startlingly high payments of personal sacrifice On the upside some thrilling and harrowing stories of Mother Nature exercising her unlimited fury are shared The ice cap adage of shovel or die takes on new meaning It was not until the fifth expedition using ground penetrating radar of a discrete frequency that the planes were finally located At a glacial rate they had moved more than a mile from their original location But that wasn't the big problem The bad news was that they were now encased in solid blue ice 260 feet deep in the bowels of the glacier To melt a shaft through the ice and down to the planes the GES invented and built a system they called the thermal meltdown generator TMG In its first field application at seventy feet deep in the glacier the melt head lost directional control gravity and started heading horizontally Henceforth the future TMGs were affectionately called gophers In 1990 the team returned to the glacier with a new gopher melted a four foot diameter shaft down to the B 17 bomber Big Stoop They then descended down the ice shaft melted out a hangar area around the bomber and salvaged an array of historical aviation paraphernalia machine guns throttle quadrants instruments the upper gun turret and so on The near impossible was accomplished In 1992 now a little more seasoned and with a few garlands of hard earned achievement they returned again with a new super gopher Their sights were now set on retrieving at least one complete Lockheed P 38 Lightning fighter plane The mission started with melting five ice shafts closely in a row The webs between the holes were then melted out to create a four foot by twenty foot slot in the glacier 260 feet deep This was the right sized opening through which they could lift large wings and fuselage sections to the surface The airplane was then carefully deconstructed hauled to the surface and then delivered to the States for reassembly It took ten years and two million dollars to put the plane back into flying condition They called her Glacier Girl The renovation was performed by Roy Shoffner a GES partner in the seventh expedition In 2002 Glacier Girl flew again and was featured in the one hour History Channel presentation The Hunt for the Lost Squadron Glacier Girl now flies and is the feature star attraction in airshows all over the country Citius altius fortius *Popular Science* ,1980-11 *Popular Science* gives our readers the information and tools to improve their technology and their world The core belief that *Popular Science* and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Floyd Clymer's Auto Topics** ,1968 **Lemon-Aid New and Used Cars and Trucks 2007-2018** Phil Edmonston,2018-02-03 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull

no punches **Lemon-Aid New and Used Cars and Trucks 2007-2017** Phil Edmonston, 2017-03-11 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car and truck book on the market Dr Phil along with George Iny and the Editors of the Automobile Protection Association pull no punches **Popular Mechanics** , 1972-08 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **The Competitive Status of the U.S. Auto Industry** National Research Council, Commission on Engineering and Technical Systems, Committee on Technology and International Economic and Trade Issues of the Office of the Foreign Secretary, Automobile Panel, 1982-02-01
