Basic Technical Analysis of Financial Markets Renato Di Lorenzo, 2013-06-03 The present book avoids the fantasy recipes that abound in technical analysis and focuses instead on those that are statistically correct and can be understood by newcomers as well as appreciated by professionals The described protocols and techniques will prove invaluable in analyzing market behavior and assisting in trading decisions The algorithms used in the technical analysis of financial markets have changed beyond recognition This book offers a more efficient technical analysis one that is not satisfied with protocols that just seem to be fine but which requires that they are indeed fine verifying this through simulations on the PC serious statistical counts and so on

Derivatives , Financial Derivatives , A Beginner's Guide to Charting Financial Markets Michael N. Kahn, 2007-12-17 This book is about arming investors with one simple tool that will enhance the investment decision making process the chart It is not the Holy Grail and even if applied exactly as offered there is no guarantee that the reader will be successful But owning a high quality hammer is no guarantee that the user will build a beautiful house The hammer is a tool and in most cases the user will still need other tools and knowledge to build that house What this book will do is give the reader the basics needed to look at a chart and get a feel for what the market or individual stock is doing It will cover only the nuts and bolts of chart analysis barely touching upon the next level concepts and definitely leaving the whiz bang stuff well alone
