Active Investing Wealth Management for High Net Worth Individuals Dr. Gary J. Harloff, PhD, 2010-01-18. This educational book provides much of the information needed for an individual to play a more effective management role in his or her own active investing wealth management process. The book is a primer of the investing portion of the wealth management process. The overall wealth management process is comprehensive and not a product that can be bought or sold. Wealth management concepts and examples of high net worth individuals, family offices, endowments, and pension plans are presented and discussed. The wealth manager and active investment manager should be separate people, with the latter owning the investment results. Active investing strategies are shown to add value over common investing wealth management practice. Foundational academic investment literature is reviewed and analyzed to provide an understanding of the premises employed by the investing community. Read this book to learn how to evaluate your manager's investment expertise by being better informed whether to keep your financial manager because of their investment skill or attention to your family, how to evaluate proposals from several financial managers.

Combating Human Trafficking Usha Rana, Rupender Singh, 2025-07-15. Despite great strides in recent years, human trafficking remains a horrific reality for countless millions of people around the world. This new book provides an exhaustive examination of the complex issue of human trafficking while offering a comprehensive blueprint for its eradication. This book delves deep into the intricacies of human trafficking, dissecting the factors that sustain its existence. It assesses existing anti-trafficking initiatives and, in response, introduces a novel approach rooted in a sociotechnical framework. This framework models a multidisciplinary strategy that combines both social and technological interventions. Recognizing human trafficking's multifaceted origins that encompass social, economic, and political dimensions, this framework underscores the necessity for a holistic approach that addresses the root causes of trafficking and its associated forms of exploitation. The book explores topics such as the applicability of government policies and technologies in human trafficking, social media and human trafficking, human rights, and cyberspace, and more. Written by esteemed experts in the field of human trafficking who possess extensive experience in both research and the practical implementation of anti-trafficking measures, the book furnishes a comprehensive and pragmatic guide to combating human trafficking.
