The M1 Garand Leroy Thompson, 2012-05-20 The M1 Garand gave the US infantryman a marked edge during World War II It shot faster and further than enemy infantry rifles and hit harder No less an authority on killing the enemy than General George S Patton called the Garand The greatest battle implement ever devised At a time when opposing forces were armed with bolt action rifles US troops had a highly reliable self loader The eight round clips which were used to load the M1 Garand were however viewed with mixed emotions by the troops on the ground Some Army and Marine Corps troops allegedly felt that the distinctive twang as the Garand s clip was ejected when empty alerted the enemy that the soldiers were reloading and resulted in an attack But the Garand became the defining mankiller of the war despite its weight and magazine problems and many US combat veterans consider it one of the key reasons they survived the war U.S. Rifles, Cal. .30, M1903, M1903A1, M1903A3 and M1903A4 Technical Manual U.S. War Department, 1944-01-20 Born from the failures of the older Springfield Model 1892 99 Krag J rgensen in battles during the Spanish American War the newer Mauser action derived Springfield M1903 service rifle would go on to serve the U S military in WWI WWII and even the Korean conflict This 1944 technical manual is not for users but is rather a repair maintenance manual for use by ordnance specialists Every component of the rifle is outlined in great depth from the sights to the barrel and even the bayonets used Illustrated with copious fine detailed photos and diagrams it describes how to maintain or repair every aspect of each sub component of the rifle No detail is left out There is even an additional section on special maintenance for long term storage or very hot very cold climates If you own a vintage M1903 Springfield of any model this is the book you will want to own A terrific resource for the historian or for those with an interest in military arms Paragraph One in the manual states contains detailed instructions for disassembly assembly inspection maintenance and repair of the materiel listed below Additional descriptive matter and illustrations are included to aid in providing a complete working knowledge of the materiel These instructions are supplementary to those in Field Manuals and Technical Manuals prepared for the using arms Rifle U S cal 30 M1903 Rifle U S cal 30 M1903A1 Rifle U S cal 30 M 1903 A3 Rifle U S cal 30 M1903A4 Snipers Sight telescopic M73B1 Weaver No 330 C Bayonet M1905 Bayonet M1 Scabbard bayonet M3 Scabbard bayonet M1910 Scabbard bayonet M7 Sling gun M1907 Sling gun M1 Cover front sight Technical Manual United States. Hodges Jr.,2012-04-20 For nearly fifty years the hard hitting mobile Browning Automatic Rifle or BAR served in US infantry units as a light squad automatic base of fire weapon providing quick bursts of concentrated fire Designed in World War One it didn t reach the front until September 1918 In the interwar years US forces used the BAR across the world from

China to Nicaragua It also became a favorite of notorious gangsters like Clyde Barrow and Bonnie Parker who prized its ability to punch through police armored cars At the outset of World War II the US armed forces decided to adapt the BAR for a light machine gun role The BAR was not without its flaws it was heavy and difficult to dismantle and reassemble and it didn't cope well with sustained fire Nevertheless the BAR saw action in every major theater of World War II and went on to be used in Korea and in the opening stages of the Vietnam War Featuring arresting first hand accounts specially drawn full color artwork and close up photographs many in color this lively study offers a vivid portrait of this powerful long lived and innovative weapon that saw service with US and other forces across the world for much of the 20th century **Army**, 1955
