## **Telekinetic A Hyllis Family Story English Edition:**

**Telekinetic (a Hyllis Family Story #1)** Laurence E. Dahners, 2014-07-12 Telekinetic is the first of a series of stories featuring the Hyllis family who tend to inherit telekinetic talents. The story is set after a plague-induced apocalypse. The resulting collapse of civilization has reduced mankind back to iron and horsepower. Tarc Hyllis's mother and his grandfather before her could feel things with their talent. They became healers because they can feel inside their patients, which frequently let them diagnose the underlying causes of an illness. Having made a diagnosis, unfortunately, there is often little they can do to treat the problem. Tarc's father can push objects with his mind, but because he can't feel inside of anything, he doesn't know where to exert force in order to help to treat his wife's patients. Tarc is just gaining the ability to do both of these things. The combination of these two powers will let him both diagnose a physical problem such as bleeding and then stop that bleeding by applying pressure inside the patient. This is a very exciting development for his mother, who too often has had to watch her patients die for lack of effective treatment. Then some strangers show up to scout the town where the Hyllises live. They plan and initiate a violent takeover. Can Tarc's powers, weak as they are, play a role in resisting this invasion?

Having made a diagnosis, unfortunately, there was often little they could do to treat a problem. Tarc's just gaining the ability to do both of these things. The combination of these two powers will let him both diagnose a physical problem such as internal bleeding and then stop that bleeding by applying pressure inside the patient. His mother finds this development extraordinarily exciting. She has too often had to watch her patients die for lack of an effective treatment. Then some strangers show up to scout the town where the Hyllises live. They plan and initiate a violent takeover. Could Tarc's powers, weak as they are, play a role in resisting this invasion? It turns out he can guide a knife after it's thrown. **Psychicians (a**

**Hyllis Family Story #5)** Laurence Dahners, 2019-04-28 This story of psychic physicians is the fifth in a series of stories featuring the psychically talented members of the Hyllis family. Hundreds of years after a plague-induced apocalypse collapsed civilization back to iron and horsepower, the Hyllises have a genetic tendency to inherit talents. Eva Hyllis and her ancestors became healers because their talents let them feel inside their patients. This helped them diagnose the underlying causes of many illnesses. Eva's children, Tarc and Daussie, have inherited telekinetic and teleportation talents. Their cousin Kazy's a telepath. Telekinetic pressure can stop bleeding, teleportation can remove arterial plaques, and telepathy can provide

anesthesia and correct psychopathy In this book they keep finding more and more medical conditions their talents allow them to treat And it turns out that the dye chemists in their new town are good enough to synthesise chemicals such as antibiotics Eva s long held dream to teach and practice medicine full time is coming true *Healers (a Hyllis Family Story #3)* Laurence E. Dahners,2015-04-26 Healers is the third in a series of stories featuring the Hyllis family who tend to inherit talents The stories are set after a plague induced apocalypse which resulted in the collapse of civilization and reduced mankind back to iron and horsepower Eva Hyllis and her ancestors became healers because they could feel the insides of their patients with their talents This helps them diagnose the underlying causes of many illnesses Having made a diagnosis sometimes they can do something but often they cannot However Eva s children inherit telekinetic and teleportation talents Telekinetic pressure can stop bleeding and teleportation can remove stones and atherosclerotic plaque As time goes on they find more and more medical conditions that their talents allow them to treat Then they enter a kingdom where practicing the art of healing is forbidden When patients come to Eva in hopes of a cure she finds herself unable to refuse them merely because the law demands that she should Treating patients brings her into conflict with a powerful king Imprisoned and enslaved is there any way she and her family can win her freedom *The New York Times Review of Books* ,1969
