Historical Perspective

- Began during WW I in France
- Designed to salvage the "walking wounded" and not "waste" valuable resources on victims with fatal injuries
- Probably performed even before WW I because it is known that one of the first phone calls made by Alexander Graham Bell was for assistance with a battery acid burn

Why Such A Demand Today?

- People living longer with chronic illnesses
- Shift from inpatient to outpatient management of many illnesses and conditions
- HMO's/Managed Care Organizations
- Reduction in number of primary care providers
 - Study showed reduction in primary care workload by 20% - 50% with the hiring of a triage nurse
- Cell phones
- Cost of healthcare

Telephone Triage

- Triage means "sorting out"
- It involves ranking patient complaints in terms of urgency, in order to book those appointments that are necessary
 - It also involves deciding when the appointment should occur
- It involves educating and advising the patient regarding a number of health related issues
