British Aerospace Samlesbury site is a large manufacturing site employing ground breaking technology for Europe's front line military aircraft. The factory works with a well managed supply chain and works closely with other British Aerospace sites in the manufacture of aircraft components. It has set up a partnership with another Aerospace Company based on exchange of knowledge and therefore needs to value that knowledge. ICI is one of the UK's leading chemical companies and plays on an international stage. Changes in international supply and demand require ICI to respond quickly to market pressures. This means that the company needs to use its knowledge assets in a well managed way and put systems in place that increase the flexibility and ensure the security of these important assets. *Final Cut Pro 3 User's Manual: Getting started, input, and output*, 2001

Western Japaneseness: Intercultural Translations of Japan in Western Media

Frank Jacob, Bruno Surace, 2021-03-02. Our images of non Western cultures are often based on stereotypes that are replicated over the years. These stereotypes often appear in popular media and are responsible for a pre set image of otherness. The present book investigates these processes and the media representation of otherness especially as an artificial construct based on stereotypes and their repetition in the case of Japan. Western Japaneseness thereby illustrates how the Western image of Japan in popular media is rather a construct that in a way replicated itself instead of a more serious encounter with a foreign and different cultural context. This book will be of great value to students and academics who hold interest in media studies, Japanese studies and cultural studies. It will also appeal to a broader audience with interests in Japan more generally. *Scientific and Technical Aerospace Reports*, 1990
