Virology Journal Impact Factor 21:

Making Sense of Journals in the Life Sciences Tony Stankus,1992 Looks at scientific journals in the life sciences to explain their variety Written to aid those who see their budgets decreasing while the price of serials increases this guide describes the life science journals comparing the leading titles via competitive advantages and cost efficiency

Renin-Angiotensin-Aldosterone System - Latest Trends Takaaki Senbonmatsu,Makoto Katoh,2025-04-16 Renin Angiotensin Aldosterone System Latest Trends consists of five chapters related to the renin angiotensin aldosterone system RAAS RAAS is a crucial hormonal system that regulates blood pressure blood volume and sodium salt balance in the body When the kidneys detect abnormalities in hemodynamics such as a drop in blood pressure or sodium concentration renin is secreted leading to the production of angiotensin II which is a physiologically active substance Angiotensin II causes cell proliferation vasoconstriction and sodium reabsorption through the angiotensin II type 1 receptor AT1 receptor helping maintain hemodynamic balance Additionally the AT1 receptor stimulates aldosterone secretion from the adrenal cortex Aldosterone regulates sodium reabsorption and potassium excretion in the kidneys Excessive activity of this system can lead to cardiovascular diseases To address this RAAS inhibitors such as angiotensin converting enzyme inhibitors ACEi angiotensin II type 1 receptor blockers ARB direct renin inhibitors DRI and mineralocorticoid receptor antagonists MRAs also known as aldosterone blockers are used to treat hypertension heart failure and arteriosclerosis These therapies can be considered the 20th century RAAS inhibitors In the 21st century the discovery of the pro renin receptor added a new dimension to the RAAS The physiological activation mechanism following angiotensin II has also been elucidated While research on the pro renin receptor as a RAAS independent factor with organ crossing functions and a potential therapeutic target continues there is still no consensus on its role as part of the RAAS Further research is needed to explore the physiological activation mechanism following angiotensin II This book collects the latest research on RAAS including studies on new indicators related to angiotensin converting enzyme and provides valuable information on its functions Journal of Virology ,2005 **SRELS Journal of Information Management** ,2000 **Human Respiratory Viral Infections** Sunit

K. Singh,2014-06-23 Using a multidisciplinary approach Human Respiratory Viral Infections is set at the level between the definitive reference work and an essential clinical manual Exploring recent advances in human respiratory viral research the text builds on the basic sciences of epidemiology virology molecular biology and immunology to cover clinical diagnosis
