Virtual Justice Greg Lastowka, 2010-10-26 Tens of millions of people today are living part of their life in a virtual world In places like World of Warcraft Second Life and Free Realms people are making friends building communities creating art and making real money Business is booming on the virtual frontier as billions of dollars are paid in exchange for pixels on screens But sometimes things go wrong Virtual criminals defraud online communities in pursuit of real world profits People feel cheated when their avatars lose virtual property to wrongdoers Increasingly they turn to legal systems for solutions But when your avatar has been robbed what law is there to assist you In *Virtual Justice* Greg Lastowka illustrates the real legal dilemmas posed by virtual worlds Presenting the most recent lawsuits and controversies he explains how governments are responding to the chaos on the cyberspace frontier After an engaging overview of the history and business models of today's virtual worlds he explores how laws of property jurisdiction crime and copyright are being adapted to pave the path of virtual law Virtual worlds are becoming more important to society with each passing year This pioneering study will be an invaluable guide to scholars of online communities for years to come

Architecture and Justice Jonathan Simon, 2016-04-15 Bringing together leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society

Challenges in Criminal Justice Ed Johnston, 2022-07-29 This collection examines contemporary challenges to the criminal justice system in England and Wales The chapters written by established academics rising stars and practising lawyers seek not only to highlight these challenges but to offer solutions The book examines issues with legal assistance in the police station concerns relating to juror decision making and problems in and presented by both virtual hearings and the advent of the Single Justice Procedure Notice The work also examines challenges surrounding vulnerability in the criminal justice system Here diversity includes vulnerability in the criminal trial neurodivergence as well as issues with diversity and marginalisation in the criminal justice system as a whole The book also discusses matters centred around sexual offending including the attrition rate in rape cases as well as the recent development of vigilante paedophile hunters

and their acceptance as a viable limb of the criminal justice system Finally the volume looks at the post conviction stage and examines recent prison policy through the lens of the human rights of the prisoner The closing chapter examines the independence of the Criminal Cases Review Commission and highlights how recent changes have undermined this While focused on England and Wales the topics discussed are of wider international significance and will be of interest to students academics and policy makers

Social Justice, Decoloniality, and Southern Epistemologies within Language Education Vander Tavares, 2023-03-03 With a strong focus on decoloniality and social justice this volume brings together critical theories concepts and practices on TESOL from multiple Brazilian perspectives The chapters showcase the work of teachers and teacher educators in confronting sociopolitical issues in Brazil including in the domains of democracy language education and knowledge production as well as prevailing issues within TESOL itself Contributions stem from an eclectic range of analytical orientations that reflect ontological and epistemological diversity while demonstrating why where and how TESOL is done in Brazil In doing so this volume also establishes a place for Southern voices to be heard in the move toward challenging complex and long standing issues of representation marginalization and exclusion that have traditionally characterised North South relations in TESOL as a field This volume seeks to promote Southern based conversations about decoloniality and social justice in TESOL and will be of direct relevance to graduate students researchers and scholars in the field of TESOL and foreign language education
