## **Vis A Textbook Fourth Edition:**

**Industrial Organization** Lynne Pepall, Dan Richards, George Norman, 2014-01-28 Pepall's Industrial Organization Contemporary Theory and Empirical Applications 5th Edition offers an accessible text in which topics are organized in a manner that motivates and facilitates progression from one chapter to the next. It serves as a complete but concise introduction to modern industrial economics. The text uniquely uses the tools of game theory, information economics, contracting issues, and practical examples to examine multiple facets of industrial organization. The fifth edition is more broadly accessible, balancing the tension between making modern industrial analysis accessible while also presenting the formal abstract modeling that gives the analysis its power. The more overtly mathematical content is presented in the Contemporary Industrial Organization text aimed at the top tier universities, while this Fifth Edition will be less mathematical, aimed at a wider range of four-year colleges and state universities.

**Evidence in Context** Jonathan Doak, Claire McGourlay, Mark Thomas, 2015-06-05 Evidence in Context explains the key concepts of evidence law in England and Wales clearly and concisely, set against the backdrop of the broader political and theoretical contexts. The book helps to inform students of the major debates within the field, providing an explanation as to how and why the law has developed as it has. This fourth edition has been revised and expanded to include developments in the law of hearsay evidence, as well as recent litigation surrounding witness anonymity orders, bad character, and vulnerable witnesses. It also addresses the ongoing controversy and debate about the use of expert witnesses. A brand new chapter considers the contentious issue of public interest immunity, and the introductory chapter has been substantially expanded to consider the continuing interplay between the UK courts and the European Court of Human Rights, as the role of human rights in evidence becomes increasingly important. Features include: Key learning points to summarise the major principles of evidence law; Practical examples to help students understand how the rules are applied in practice; Self-test questions to encourage students to reflect on what they have learned; A supporting companion website including answers to self-test questions. Well-written, clear, and with a logical structure throughout, Evidence in Context contains all the information necessary for any undergraduate evidence law module.

**Glaucoma** Shimon Rumelt, 2013-04-17 Glaucoma is a specialty in ophthalmology that includes a group of diseases that affect the optic disc and visual fields and is usually accompanied by increased intraocular pressure. This book addresses new topics in glaucoma that have not been included and expands topics that have been included in the previous glaucoma books published by InTech. The book is a product of balance between expedited publication and the will to encompass the whole field and therefore contains the latest developments and new perspectives in glaucoma. It is intended for glaucoma specialists, general ophthalmologists, trainees, and researchers to increase the knowledge and understanding of these complex diseases and to encourage further investigation for the benefit of the entire human community.
