aims to change the way we think about politics talk about politics and vote It does this in two ways First it shows it s impossible for a Republican Democrat or voter in any political party to possess a significant level of knowledge of facts that would help their party secure or maintain political power It calls this knowledge political knowledge and shows how unfeasible it is for anyone to have it Second it explains how we might best be politically engaged given that we have virtually no political knowledge To argue that it is impossible for any person to possess a significant amount of political knowledge the book depends on two empirically verified facts The first is that we have virtually no means of acquiring political information except by believing what other people say The second is that when people start talking about politics they become highly unreliable They re very likely to say false things when voicing political opinions because they employ a belief forming process that psychologists call identity protective cognition This is a type of reasoning aimed not at truth but at preserving one s membership in some identity defining group In combination these two observations cast serious doubt on all of our political beliefs As the book explains however the proper response to this doubt is not to simply avoid politics Rather the best response is a kind of humble but real engagement with politics that constantly manifests one s awareness that one is at best making educated guesses rather than speaking and acting from knowledge *Flee 9-5* Ben Angel,2014-03-31 How to quit the rat race do what you love and make money doing it Ben Angel also known as the Agent of Influence is Australia s top personal branding and influence specialist Entrepreneurs companies speakers and famous authors look to him when they want to learn how to engage their target audiences and the media or build a highly influential personal brand In this new book Angel offers practical actionable advice on how to ditch the nine to five life and do something that both inspires and enriches you With step by step strategies on how to design fine tune and market your business idea this book shows you how to discover what you want to do crack the code of the new social media landscape find the tipping point that makes your business go viral and make money authentically by doing what you love With lifelong job security a thing of the past the most successful people are those capable of reinventing themselves and what they do This book shows readers how to do that by monetising their particular area of expertise to change the world and get rich in the process Shows you how to flee 9 5 and turn your expertise and knowledge into a 6 7 figure business in under 6 months Find out ways to crack the code of the new world economy and shape the world we live in Reveals how any business owner individual or entrepreneur can outsource their work and do what they love from anywhere in the world If you want to start your own business forget the nine to five life and start doing something that you love With this book in hand you ll learn to use social media and modern marketing techniques to build a brand create revenue streams and earn a six to seven figure income *Ego is the Enemy* Instaread,2016-07-08 *Ego is the Enemy* by Ryan Holiday Summary Analysis Preview *Ego Is the Enemy* is Ryan Holiday s attack on the role that ego can play in the lives of most people Holiday does not use the term ego in the traditional Freudian sense but rather as a synonym for excessive self regard or egotism Thanks to the Internet and social media having an inflated

ego is now more encouraged in Western society than ever before Nevertheless learning how to cultivate an authentic sense of oneself and one's abilities is vital for living gracefully and achieving one's goals Although history is populated by famous and even notorious egomaniacs the most influential and successful people were more often those who focused on their life's work with humility and dedication Compare for example the outsized ego of Napoleon whose grandiose imperial ambitions ended in shame and exile with the character of American general William Tecumseh Sherman After retiring from the military he refused to run for president PLEASE NOTE This is key takeaways and analysis of the book and NOT the original book Inside this Instaread Summary of Ego is the Enemy Overview of the Book Important People Key Takeaways Analysis of Key Takeaways About the Author With Instaread you can get the key takeaways summary and analysis of a book in 15 minutes We read every chapter identify the key takeaways and analyze them for your convenience **GRASPED Providence** Steven Brough, 2024-04-04 In an era dominated by analytics algorithms and aggressive competition GRASPED Providence Navigating Internet Marketing with Divine Insight emerges as a beacon of innovative thought marrying the realms of spirituality and strategic internet marketing in an unprecedented way The author masterfully explores the concept of providence the divine guidance believed to influence the material world and its applicability to the digital marketplace offering a refreshing perspective that challenges conventional marketing wisdom At the heart of this compelling read is the GRASPED framework a novel approach that encourages marketers to harness strategic insight ethical integrity and a providential mindset to achieve success in the digital realm Through a series of engaging anecdotes insightful analyses and practical advice the book illustrates how serendipitous events and divine insights can lead to unexpected marketing breakthroughs What sets this book apart is its ability to blend philosophical depth with practical marketing strategies urging readers to reconsider the role of fate destiny and divine intervention in their professional lives It's not just about leveraging the latest digital marketing tools or tactics it's about understanding the deeper currents that guide the digital world and learning how to navigate them with purpose and integrity The author's exploration of the balance between human agency and the influence of higher powers in internet marketing decisions is both thought provoking and enlightening The book doesn't shy away from tackling complex ethical considerations making a compelling case for the integration of spiritual principles in business practices GRASPED Providence Navigating Internet Marketing with Divine Insight is more than just a marketing manual it's a philosophical guide for the modern entrepreneur It offers a unique lens through which to view the challenges and opportunities of internet marketing encouraging readers to embrace a more holistic purpose driven approach to their digital endeavors Whether you're a seasoned marketing professional or an aspiring entrepreneur this book will leave you with a newfound appreciation for the mysterious interplay between divine providence and professional success It's a must read for anyone looking to elevate their internet marketing strategy to a higher plane of purpose and meaning **To Save Everything, Click Here** Evgeny Morozov, 2013-03-05 A New York Times Notable Book of the Year In the very near

future smart technologies and big data will allow us to make large scale and sophisticated interventions in politics culture and everyday life Technology will allow us to solve problems in highly original ways and create new incentives to get more people to do the right thing But how will such solutionism affect our society once deeply political moral and irresolvable dilemmas are recast as uncontroversial and easily manageable matters of technological efficiency What if some such problems are simply vices in disguise What if some friction in communication is productive and some hypocrisy in politics necessary The temptation of the digital age is to fix everything from crime to corruption to pollution to obesity by digitally quantifying tracking or gamifying behavior But when we change the motivations for our moral ethical and civic behavior we may also change the very nature of that behavior Technology Evgeny Morozov proposes can be a force for improvement but only if we keep solutionism in check and learn to appreciate the imperfections of liberal democracy Some of those imperfections are not accidental but by design Arguing that we badly need a new post Internet way to debate the moral consequences of digital technologies [To Save Everything Click Here](#) warns against a world of seamless efficiency where everyone is forced to wear Silicon Valley s digital straitjacket
