Civil Engineering, 2008

Politics and Pan-Africanism Dawn Nagar, 2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC These RECS include Africa's major economies

Egypt South Africa and Kenya but are also home to Africa's most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism

How Long Will South Africa Survive? R.W.

Johnson,2015-01-11 In 1977 Johnson's best selling *How Long Will South Africa Survive* offered a controversial and highly original analysis of the survival prospects of apartheid Now after more than two decades of the ANC in government he believes the question must be posed again The big question about ANC rule Johnson writes is whether African nationalism would be able to cope with the challenges of running a modern industrial economy Twenty years of ANC rule have shown conclusively that the party is hopelessly ill equipped for this task Indeed everything suggests that South Africa under the ANC is fast slipping backward and that even the survival of South Africa as a unitary state cannot be taken for granted The fundamental reason why the question of regime change has to be posed is that it is now clear that South Africa can either choose to have an ANC government or it can have a modern industrial economy It cannot have both

Foreign Policy in Post-Apartheid South Africa Adekeye Adebajo,Kudrat Virk,2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent's largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a regional hegemon This book provides the first comprehensive assessment of South Africa's post Apartheid foreign policy Over its 23 chapters and with contributions from established Africa Western Asian and American scholars as well as diplomats and analysts the book examines the current pattern of the country's foreign relations in impressive detail The geographic and thematic coverage is extensive including chapters on the domestic imperatives of South Africa's foreign policy peace making defence and security bilateral relations in Southern Central West Eastern and North Africa bilateral relations with the US China Britain France and Japan the country's key external multilateral relations with the UN the BRICS economic grouping the African Caribbean and Pacific Group ACP as well as the EU and the World Trade Organization WTO An essential resource for researchers the book will be relevant to the

fields of area studies foreign policy history international relations international law security studies political economy and development studies **Food and Nutrition Security: Underutilized Plant and Animal-Based Foods** Yasmina Sultanbawa, Michael Erich Netzel, Dharini Sivakumar, Olivia Renee Louise Wright, 2022-02-28 Prof Dharini Sivakumar was previously an Associate Partner at Simfresh International an agribusiness development company All other Topic Editors declare no competing interests with regard to the Research Topic subject Global Trends of Smart Cities Tooran Alizadeh, 2021-03-31 Global Trends of Smart Cities provides integrated analysis of 135 cities that participated in the IBM's Smarter Cities Challenge in 2010-2017. It establishes evidence-based benchmarking of city geographies, city sizes, governance structures, and local planning contexts in smart cities. This book uses a combination of descriptive statistical analysis and real-world case study narratives to evaluate the ways in which each individual urban variable or their combination matter in the diversity of smart city approaches around the globe. It is acknowledged that the Smarter Cities Challenge offers a particular set of smart initiatives and is not representative of all smart cities around the world. Nevertheless, the global presence of the Challenge across five continents and its involvement with 135 cities of all size and socioeconomic status provides a solid foundation to conduct comparative research on smart cities. Considering limited comparative research available in the smart city debate, this book makes significant contribution in understanding the state of smart city development in urban governments worldwide. Offers an integrated assessment of smart cities using a combination of statistical analysis and real-world case study narrations. Compares smart city interventions from the 135 cities that participated in the Smarter Cities Challenge with detailed case study narrations included for 17 cities. Demonstrates the ways in which geography, size, governance, and local planning context each individually and in combination with each other influence smart city development around the globe. Develops an urban research perspective to the smart city discourse otherwise dominated by digital and IT specialists, engineers, and business experts. Identifies the North-South divide as the most influential factor explaining how smart urbanism is framed worldwide and argues that the future of smart city development depends on how smart approaches the ongoing and increasing level of inequity and inequality not only within our cities but also at the transregional and transnational levels Transformative Innovation for Sustainable Human Settlements Andrew Emmanuel Okem, Sithembiso Lindelihle Myeni, Tshepang Mosiea, 2024-11-18 This book uses the transformative innovation policy TIP as a lens to show how innovative processes, practices, and systems could address critical challenges and facilitate the delivery of sustainable human settlements in South Africa. The TIP approach shows that addressing societal problems is not a function of a technical solution within a government department but one that requires partnership with multiple stakeholders. The book argues that it is essential to understand and embrace innovation policy that is transformative and responds to the social and environmental needs at local, provincial, and national levels. It demonstrates that innovation policy should focus on transforming the socio-technical systems that demand embracing notions such as experimental delivery and learning.

directionality and inclusivity Chapters explore the ability of the state to transform its organisational processes and capacity to improve and align its planning implementation monitoring and evaluation systems to high levels of efficiency and sustainability targets Bringing together various theoretical and empirical perspectives on innovation in the context of sustainable human settlement this book will be of interest to scholars and students in the fields of Housing Human Settlements Architecture Public Policy Development Studies Civil Engineering Political Science and Public Administration
