Trade Unions and the Age of Information and Communication Technologies in Kenya Eric E. Otenyo, 2017-03-01
Trade Unions and the Age of Information and Communication Technologies in Kenya provides a comprehensive description of the use of ICTs within the trade union movement in Kenya. In this book, Professor Eric Otenyo explores the intersection between new technologies and unions as key stakeholders in national governance and development. The dearth of research on how trade unions can play a part in the new economy continues to undermine the effective use of ICTs in development. This book brings to light the challenges that unions face while navigating the new economy and netstate characterized by a proliferation of ICTs and globalization. **Official Airline Guide**, 1976
