Oilseed Cake for Nematode Management Faheem Ahmad, Rakesh Pandey, 2023-07-25 Plant parasitic nematodes (PPNs) devastate many crop plants causing billions of dollars in agricultural losses each year. The plant by products such as oilseed cakes are sources of bioactive compounds with nematicidal potential. Oilseed cakes are an excellent organic fertilizer and their bioactive compounds are now gaining importance as they are safe for the environment. This book provides the most comprehensive and up-to-date review of research on the use of oilseed cakes against PPNs. The complete knowledge of better uses of oilseed cakes for nematode management is necessary for developing effective nematode control options to reduce yield loss. Key features: Describes plant by products such as oilseed cakes and their potential applications; Explores bioactive compounds from oilseed cakes for agricultural biofertilization and nematicidal activity; Discusses nematode management in vegetable, fruit, and legume crops; Covers the use of oilseed cakes and management of the associated challenges. Shifting Journalism Boundaries in Zimbabwe Mphathisi Ndlovu, Lungile Tshuma, 2025-12-03 This book investigates the ways in which peripheral news actors in digital media are transforming journalism in Zimbabwe. Journalism's boundaries have become blurred, porous, and fuzzy as non-traditional news actors such as bloggers, social media influencers, citizen journalists, start-ups, satirists, comedians, and fact-checkers gain increasing influence in digital spaces. As legacy news media attempt to ring-fence the field, journalism becomes both bounded and boundless. This book examines how peripheral journalistic practices are impacting Zimbabwe, a semi-authoritarian regime facing significant economic pressures. Taking into account Zimbabwe's specific sociocultural, political, and economic context, this book explores how political issues are mediated by periphery actors, how they deal with challenges to their legitimacy and professionalism, how sustainable their positions are, and finally, what the implications of shifting journalistic boundaries are for education and training institutions. As the impact of digital technologies continues to rise, this timely book will be an important read for researchers working on journalism, media, and communication, and African studies.
