The American Legal Profession Christopher P. Banks, 2023-11-10 This book is a tight and fresh analysis of the American legal profession and its significance to society and its citizens The book s primary objective is to expose and correct the principal misconceptions myths surrounding prelaw study law school admission law school and the American legal profession itself These issues are vitally important to prelaw advisors and instructors in light of the difficult problems caused by the Great Recessions of 2008 and 2020 2021 and the disruptions caused by the COVID 19 pandemic Aimed equally at prelaw advisors and potential law students this book can be used as a supplement in the interdisciplinary undergraduate law related instructional market including courses that cater to majors minors in political science and criminal justice in particular It can also be used in career counselling internships and the extensive paralegal program market New to the Second Edition Expanded coverage to include paralegal and legal assistant training New material on women and minority law students who are transforming law schools and the profession Explores challenges to the legal profession posed by economic recession COVID 19 high tuition rates exploding student loan debt internet technological advances and global competitive pressures including legal outsourcing and DIY legal services Updated data and tables along with all underlying research Finally, a Use for the U.S. News Law School Rankings Noah Chauvin, 2020 The U S News World Report law school rankings are highly influential among people applying to law school Nonetheless they are widely panned among the legal community for the often arbitrary criteria they use to distinguish between law schools In this essay I seek to rescue the rankings from this derision by proposing a novel use for them picking the winner of college football games against the spread

I report the results of an experiment in which I applied this method and briefly discuss what these exciting new findings will mean for the future of the U S News rankings and their reputation in the legal community Ranking of Top Law Schools 1987-2004 by U.S. News & World Report ,2005 *U.S. News and World Report ,2007* Measuring Outcomes Andrew P. Morriss,William D. Henderson,2013 The U S News World Report annual rankings play a key role in ordering the market for legal education and by extension the market for entry level lawyers This Article explores the impact and evolution of placement and post graduation data which are important input variables that comprise 20 percent of the total rankings methodology In general we observe clear evidence that law schools are seeking to maximize each placement and post graduation input variable During the 1997 to 2006 time period law schools in all four tiers posted large average gains in employment rates upon graduation and nine months which appear to result from a combination of competition and gaming strategies In addition Law schools in tiers 2 3 and 4 have increased 1L academic attrition which may be an attempt to increase the U S News bar passage score We also use multivariate regression analysis to model the employed at graduation and employed at nine months input variables We find that the following factors are associated with higher employed at graduation rates 1 higher 25th percentile LSAT scores 2 more on campus interviews OCI 3 higher percentage of part time students 4 location outside a Top 10 corporate law market and 5 status as a historically black law school All of these factors except LSAT and OCI activity vanish when examining the employed at 9 months data The U S News Lawyer Judge reputation score is associated with higher employment at nine months Further research on the Lawyer Judge survey instrument is needed After presenting our empirical results we critique the specific measures of post graduation success used in the U S News rankings and explain how each can be improved We conclude that the best solution to law schools complaints about the impact of U S News rankings is greater data availability and transparency particularly on post graduation outcomes and other factors affecting students eventual employment prospects **Official American Bar Association Guide to**
