SPEEDSPOOL® LINE INSTALLATION

Always use original equipment manufacturer 0.085 inch (2.41 mm) replacement line. Lines other than those specified may make the engine overheat or fail.

WARNING: Do not remove or alter the line cutting blade assembly. Excessive line length will make the clutch overheat. This may lead to serious personal injury or damage to the unit.

There are two methods to replace the SpeedSpool® trimming line:

- Wind the inner reel with new line
- Install a pre-wound inner reel

WARNING: Do not remove or alter the line cutting blade assembly. Excessive line length will make the clutch overheat. This may lead to serious personal injury or damage to the unit.

1. Cut two pieces of 0.085 inch (2.41 mm) trimming line, 10 feet (3 m) long.
2. Hold the outer spool and turn the inner reel counterclockwise to line up the arrows on the outer spool and inner reel (Fig. 20).
3. Pull old line out of the line loading and line locking holes (Fig. 22 and 23).
4. Insert a piece of trimming line straight into one of the eyelets in the outer spool. Push it up through the line loading hole in the inner reel (Fig. 21). Do not bend the line when

NOTE: Maintenance, replacement, or repair of the emission control devices and systems may be performed by any non-road engine repair establishment, individual or authorized service dealer.

In order to ensure peak performance of your engine, inspection of the engine adjust part may be necessary after 50 hours of operation. If you notice lost RPM, poor performance or general lack of acceleration, this service may be required. If you feel your engine is in need of this inspection, refer service to any non-road engine repair establishment, individual or authorized service dealer for repair. DO NOT attempt to perform this process yourself as engine damage may result from contaminants involved in the cleaning process for the port.

5. Insert the line into the locking hole (Fig. 22). Do not push the line more than 1/2 inch (12.7 mm) into the line locking hole. The line will form a small loop (Fig. 22) when it is inserted correctly.
