## Theories Of Authorship:

*Theories of Authorship* John Caughie, 1981 On motion picture authorship      **Theories of Authorship**, 1981      *Theories of authorship* J. Caughie, 1981      Theories of Authorship John Caughie, British Film Institute, 1981-01-01      **The Work of Authorship** Mireille Eechoud, 2025-10-01 What fresh perspectives can viewing copyright law through a humanities looking glass bring to key notions of tomorrow's copyright law Technological and economic concerns have long been the drivers of debate about copyright But diverse disciplines in the humanities including literary studies aesthetics film studies and the philosophy of art have a great deal to offer if we wish to establish a more nuanced and useful conception of copyright and authorship This volume brings together scholars from a range of disciplines to explore the challenges inherent in translating aesthetics and creativity studies to concepts of copyright especially as longstanding approaches are troubled by the rise of the digital      Lukan Authorship of Hebrews David L. Allen, 2010 The fifth volume in the popular NEW AMERICAN COMMENTARY STUDIES IN BIBLE THEOLOGY series argues that gospel writer Luke is also the author of Hebrews      **A Companion to the Gawain-poet** Derek Brewer, Jonathan Gibson, 1997 It ends with a discussion of the reception of the Morte Darthur from the sixteenth to the twentieth centuries and a select bibliography      *Development and Assessment of Self-Authorship* Marcia B. Baxter Magolda, Peggy S. Meszaros, Elizabeth G. Creamer, 2023-07-03 This book brings together new scholarship that expands and refines the concept of self authorship across cultures It adopts a constructive developmental approach to self evolution that emphasizes the interaction of personal characteristics and contextual influences on individuals construction of knowledge identities and relationships Individual chapters cover subjects from populations as varied as Dutch students male and female Bedouin and Jewish adolescents African American male and female adolescents in economically depressed areas of the US Latino college students grappling with ethnic identity and dissonance Australian college females preparing to be childcare workers and finally a comparative study of Japanese and US college students epistemic beliefs The book concludes by addressing questions about the challenges and opportunities involved in developing a valid measure of self authorship that is less time and expertise intensive than the in depth one on one interview employed until now and offering an outline of future theoretical and methodological research needed to further our understanding of self evolution in general and self authorship in particular      Authorship's Wake Philip Sayers, 2020-12-10 Authorship's Wake examines the aftermath of the 1960s critique of the author epitomized by Roland Barthes's essay The Death of the Author This critique has given rise to a body of writing that confounds generic distinctions separating the literary and the theoretical Its archive consists of texts by writers who either directly participated in this critique as Barthes did or whose intellectual formation took place in its immediate aftermath These writers include some who are known primarily as theorists Judith Butler others known primarily as novelists Zadie Smith David Foster Wallace and yet others whose texts are difficult to categorize the autofiction of Chris Kraus Sheila Heti and Ben Lerner the autotheory of

Maggie Nelson These writers share not only a central motivating question how to move beyond the critique of the author subject but also a way of answering it by writing texts that merge theoretical concerns with literary discourse Authorship s Wake traces the responses their work offers in relation to four themes communication intention agency and labor *The Author in Middle Byzantine Literature* Aglae Pizzone,2014-10-24 Author and authorship have become increasingly important concepts in Byzantine literary studies This volume provides the first comprehensive survey on strategies of authorship in Middle Byzantine literature and investigates the interaction between self presentation and cultural production in a wide array of genres providing new insights into how Byzantine intellectuals conceived of their own work and pursuits

Ephesians Ernest Best,1998-01-01 A major introduction translation and verse by verse commentary Professor Best provides an overall view of Ephesians which demonstrates the power and consistency of its author s work Among the many important elements in this commentary Ernest Best explores for example the relationship between the primarily theological aspects of Ephesians which concentrate on the nature of the church and the primarily ethical aspects which concentrate on the behaviour of members of Christian communities towards one another An indispensable reference for scholars students and clergy The Shepherd of Hermas Jonathon Lookadoo,2021-03-25 Jonathon Lookadoo guides readers through the early Christian apocalypse known as the Shepherd of Hermas providing a clear overview of the numerous literary historical and theological insights that this text contains for those researching early Christianity Dividing his exploration into two sections Lookadoo first introduces the Shepherd by providing an overview of the text to those with limited familiarity while also focusing on critical issues such as authorship date and the Shepherd s complex manuscript tradition and reception history He then moves to examine the interpretation of particular passages in detail and by close exploration of theological and literary features he is able to contextualize the Shepherd alongside contemporary contexts This volume covers the important thematic issues in the Shepherd and also provides a fresh perspective that arises from a thoroughly textual focus in so doing Lookadoo enables readers to engage both with the Shepherd itself and the scholarship that surrounds the text **Authors, Copyright, and Publishing in the Digital Era** Cantatore, Francina,2014-02-28 Basic copyright laws and enforcements have been in effect for hundreds of years However laws with such extensive histories can often make understanding them complicated As publishing moves into a digital arena copyright laws have become increasingly complex Authors Copyright and Publishing in the Digital Era not only addresses the current complexities that arises with authors and copyright laws when publishing digitally but it also sheds light on the current processes and procedures in place concerning copyright options for digital publishers This publication addresses a global audience in the manner in which it discusses traditional methods used in publishing before segueing into new model and strategies for both a business and an author in this ever expanding digital world *Mosaic Space and Mosaic Auteurs* Yun-hua Chen,2016-12-19 Mosaic Space and Mosaic Auteurs constructs a model of mosaic which extends our focus beyond narrative strategy to approach the trend of diverse multi strand films across

genres nations and filmmaking contexts since the late 1980s Different from investigation of this recurring global phenomenon from perspectives of spectator engagement narratology cognitive understanding and socio political messages proposed by film scholars the model of mosaic helps establish the intertwining relationship between narrative aesthetics transnational production and distribution modes and in the framework of contextualised geopolitical spaces As the transnational auteurs in question draw talents resources and subject matters from a wide range of geopolitical spaces along their border crossing journeys their films juxtapose diverse spatial configurations In fact mosaic is a spatial metaphor which puts emphasis on the visual image of spaces and links space narrative and authorship into a multidimensional model of spatial compilation It is a mosaic which gathers groups juxtaposes and re arranges spaces offering a reading of mosaic beyond an exclusive focus on narrative its nuances are examined in detail in different mosaics of Alejandro Gonz lez I rritu Atom Egoyan Hou Hsiao hsien and Michael Haneke

**The Cinema Book** Bloomsbury Publishing, 2019-07-25 The Cinema Book is

widely recognised as the ultimate guide to cinema Authoritative and comprehensive the third edition has been extensively revised updated and expanded in response to developments in cinema and cinema studies Lavishly illustrated in colour this edition features a wealth of exciting new sections and in depth case studies Sections address Hollywood and other World cinema histories key genres in both fiction and non fiction film issues such as stars technology and authorship and major theoretical approaches to understanding film *The Idea of Authorship in Copyright* Lior Zemer, 2017-03-02 As information flows become increasingly ubiquitous in our post digital environment the challenges to traditional concepts of intellectual property and the practices deriving from them are immense The romantic understanding of the lone author as an endless source of new creations has to face these challenges In order to do so this work presents a collectivist model of intellectual property rights The core argument is that since copyright works enjoy profit from significant public contribution they should not be privately owned but considered to be a joint enterprise made real by both the public and author It is argued that every copyright work depends on and is reflective of the author s exposure to externalities such as language culture and the various social events and processes that occur in the public domain therefore copyright works should not be regarded as exclusive private property The study takes its organizing principle from John Locke defining and proving the fatal flaw inherent in debates on copyright on the one hand the copyright community is eager to arm authors with a robust property right over their creation while on the other this community totally ignores the fact that the exposure of the individual to externalities is what makes him or her capable of creating material that is copyrightable Just as Locke was against the absolute authority of kings the expressed view of the study is against the exclusive right an author can claim Introduction to the Attribution of Literature Anna Faktorovich, 2025-11-19 Introduction to the Attribution of Literature describes the first unbiased and accessible authorship attribution method and uses it to present the first accurate re attribution of 311 canonical texts from the 18th century to only 10 ghostwriters and 323 texts from the 19th century to 11 ghostwriters For example the little known Sir Francis Cowley Burnand is chronologically stylometrically and with handwriting analysis proven to be the ghostwriter behind 55 canonical tested texts including Emily Bronte s Wuthering Heights Collins Woman in White Doyle s Sherlock Holmes Kipling s Captain Courageous Stoker s Dracula Anthony Trollope s American Senator Wells Island of Doctor Moreau Wilde s Picture of Dorian Gray and Dickens Great Expectations This method applies a combination of 23 to 28 different types of punctuation parts of speech and lexical linguistic tests Parts of this book offer extensive statistical evidence in support of why this method s findings are quantitatively reliable If preceding attribution methods had been equally reliable then they would have also concluded canonical British texts have been overwhelmingly ghostwritten A section in this book explains the methodological flaws of these preceding attribution approaches because of which they have incorrectly reaffirmed their canonically accepted bylines It includes definitions of central stylometric terminology and explains how readers can apply the described strategies to their own attribution research at any academic level The
