

Theme Analysis Essay

The theme of a work of literature is the comment the author makes about his subject matter, a revelation about the behavior of human beings or the conduct of society; an insight into the human condition. It is the insight we gain from thinking about what we have read. The theme of a literary work is its underlying central idea, or the generalization it communicates about life. At times, the author's theme may not confirm or agree with your own beliefs, but even then, if it is skillfully written, the work will still have a theme that illuminates some aspects of true human experience.

5. Are there any recurrent images or clusters of images? Do these images support the idea or theme that you find in the work?
