New Testaments Michael Austin, 2012 In the seventeenth and eighteenth centuries popular works of literature attracted as they attract today sequels prequels franchises continuations and parodies Sequels of all kinds demonstrate the economic realities of the literary marketplace This represents something fundamental about the way human beings process narrative information We crave narrative closure but we also resist its finality making such closure both inevitable and inadequate in human narratives Many cultures incorporate this fundamental ambiguity towards closure in the mythic frameworks that fuel their narrative imaginations

New Testaments Cognition Closure and the Figural Logic of the Sequel 1660 1740 examines both the inevitability and the inadequacy of closure in the sequels to four major works of literature written in England between 1660 and 1740 Paradise Lost The Pilgrim's Progress Robinson Crusoe and Pamela Each of these works spawned sequels which while often different from the original works connected themselves through rhetorical strategies that can be loosely defined as figural Such strategies came directly from the culture's two dominant religious narratives the Old and New Testaments of the Christian Bible two vastly dissimilar works seen universally as complementary parts of a unified and coherent narrative

The Hero and the Perennial Journey Home in American Film Susan Mackey-Kallis,2010-08-03 In contemporary America myths find expression primarily in film What s more many of the highest grossing American movies of the past several decades have been rooted in one of the most fundamental mythic narratives the hero quest Why is the hero quest so persistently renewed and retold In what ways does this universal myth manifest itself in American cinema And what is the significance of the popularity of these modern myths The Hero and the Perennial Journey Home in American Film by Susan Mackey Kallis is an exploration of the appeal of films that recreate and reinterpret this mythic structure She closely analyzes such films as E T the Star Wars trilogy It s a Wonderful Life The Wizard of Oz The Lion King Field of Dreams The Piano Thelma and Louise and 2001 A Space Odyssey Elements of the quest mythology made popular by Joseph Campbell Homer s Odyssey the perennial philosophy of Aldous Huxley and Jungian psychology all contribute to the compelling interpretive framework in which Mackey Kallis crafts her study She argues that the purpose of the hero quest is not limited to the discovery of some boon or Holy Grail but also involves finding oneself and finding a home in the universe The home that is sought is simultaneously the literal home from which the hero sets out and

the terminus of the personal growth he or she undergoes during the journey back Thus the quest Mackey Kallis asserts is an outward journey into the world of action and events which eventually requires a journey inward if the hero is to grow and ultimately necessitates a journey homeward if the hero is to understand the grail and share it with the culture at large Finally she examines the value of mythic criticism and addresses questions about myth currently being debated in the field of communication studies

Para-Narratives in the Odyssey Maureen Alden, 2017-09-15 Readers coming to the Odyssey for the first time are often dazzled and bewildered by the wealth of material it contains which is seemingly unrelated to the central story the main plot of Odysseus return to Ithaca is complicated by myriad secondary narratives related by the poet and his characters including Odysseus own fantastic tales of Lotus Eaters Sirens and cannibal giants Although these para narratives are a source of pleasure and entertainment in their own right each also has a special relevance to its immediate context elucidating Odysseus predicament and also subtly influencing and guiding the audience's reception of the main story By exploring variations on the basic story shape drawing on familiar tales anecdotes and mythology or inserting analogous situations they create illuminating parallels to the main narrative and prompt specific responses in readers or listeners This is the case even when details are suppressed or altered as the audience may still experience the reverberations of the better known version of the tradition and it also applies to the characters themselves who are often provided with a model of action for imitation or avoidance in their immediate contexts

A Tri-Dimensional Model of Mental Health Stephen J. Costello, 2022-09-06 This work is an ambitious original and searching study as to what constitutes and comprises mental health It advances the proposition that existential or holistic health depends on integral wholeness the synthesis of body mind and heart As such a tri dimensional model is proposed based on the triadic self rooted in philosophical perspectives on the subject arguing throughout that the human person is a unity in diversity that one is always whole and well in one's Self essence which must be distinguished from the ego personality The importance and relevance of the Enneagram as a foundational system for understanding human personality is referenced throughout The various strands and thought threads in the book coalesce around the central doctrine of nonduality exemplified by mystical Christianity and the philosophia perennis

The Cosmic Journey in the Book of Revelation Joel M. Rothman, 2023-05-18 Joel M Rothman considers the significance of cosmology in biblical and extra biblical texts and the role of the cosmic journey in many apocalyptic narratives He posits that Revelation s narrative likewise takes the hearer on a virtual journey through a cosmic story space of great theological significance While scholarship commonly assumes a three tiered cosmos in Revelation Rothman argues that Revelation s narrative operates in a four tiered cosmos with the hyper heaven sitting above the sky heaven earth and abyssal depths a cosmic story space that is recreated in the imagination of the hearers Beginning with a methodology of visual narrative reading Rothman then discusses the assumptions and existing conceptions regarding heaven and earth He stresses that Revelation does not exhibit tension in its portrayal of heaven between heaven as a site of conflict and heaven as the realm in which God truly reigns but rather shows readers a sky heaven characterised by archetypal conflict between powerful sky beings and a hyper heaven defined by full recognition of the Throne In journeying through the sky structure and God space and by analysing the four cosmic layers in operation the distinct nature of the two sky spaces cosmic change and the ideological import of the cosmic structure Rothman demonstrates that the existence of the hyper heaven in contradistinction with the limited lived cosmos of earth and sky heaven is a present guarantee of the final cosmic transformation that creates a new space for human life exclusive of imperial draconian elements
