Marx: A Very

Short Introduction Peter Singer, 2000-10-12 Peter Singer identifies the central vision that unifies Marx's thought enabling us to grasp Marx's views as a whole. He explains alienation, historical materialism, the economic theory of Capital, and Marx's idea of communism in plain English and concludes with an assessment of Marx's legacy.

Mormonism: A Very Short Introduction Richard Lyman Bushman, 2008-04-22 Beginning with a handful of members in 1830, the church that Joseph Smith founded has grown into a world-wide organization with over 12 million adherents playing prominent roles in politics, sports, entertainment, and business. Yet they are an oddity. They are considered wholesome, conservative, and friendly on one hand, and clannish, weird, and self-righteous on the other. *Mormonism: A Very Short Introduction* explains who Mormons are, what they believe, and how they live their lives. Written by Richard Lyman Bushman, an eminent historian and practicing Mormon, this compact, informative volume ranges from the history of the Church of Jesus Christ of Latter-day Saints to the contentious issues of contemporary Mormonism. Bushman argues that Joseph Smith still serves as the Mormons' Moses. Their everyday religious lives are still rooted in his conceptions of true Christianity. They seek revelation to solve life's problems just as he did. They believe the authority to seal families together for eternity was restored through him. They understand their lives as part of a spiritual journey that started in a council in heaven before the world began just as he taught. Bushman's account also describes the tensions and sorrows of Mormon life. How are Mormons to hold on to their children in a world of declining moral standards and rampant disbelief? How do rational, educated Mormons stand up to criticisms of their faith? How do single Mormons fare in a church that emphasizes family life? The book also examines polygamy, the various Mormon scriptures, and the renegade fundamentalists who tarnish the LDS image when, in fact, they're not members. In a time when Mormons such as Mitt Romney and Harry Reid are playing prominent roles in American society, this engaging introduction enables readers to judge for themselves how Mormon teachings shape the character of believers. About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology, Politics to Classics, Literary Theory to History, and Archaeology to the Bible. Not simply a textbook of definitions, each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field. Every Very Short Introduction gives a readable evolution of the subject in question, demonstrating how the subject has developed and how it has influenced society. Eventually, the series will encompass every major academic discipline, offering all students an accessible and abundant reference library. Whatever the area of study that one deems important or appealing, whatever the topic that fascinates the general reader, the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable.

Galaxies: A Very Short Introduction John Gribbin, 2008-03-27 In this fascinating Very Short Introduction, popular science writer John Gribben tells the story of our growing understanding of galaxies from the days before Galileo to our present-day observations of our many hundreds of millions of galactic neighbors. Not only are galaxies fascinating astronomical structures in themselves, but their study has revealed much of what we know

today about the cosmos providing a window on the Big Bang and the origins of the Universe Gribben looks at our own Milky Way Galaxy in detail from the different kinds of stars that are born within it to the origins of its magnificent spiral structure Perhaps most interesting Gribben describes the many exciting discoveries have been made about our own galaxy and about those beyond how a supermassive black hole lurks at the center of every galaxy how enormous forces are released when galaxies collide how distant galaxies provide a window on the early Universe and how the formation of young galaxies shed needed light on the mysteries of Cold Dark Matter John Gribbin is one of the best known current popular science writers His many books include the acclaimed *The Universe A Biography* *In Search of Schrodinger's Cat* and *Science A History* He has written for many newspapers and regularly contributes to radio and television documentaries and debates and also writes science fiction novels He formerly worked for *Nature* and *New Scientist* and is presently a Visiting Fellow in Astronomy at the University of Sussex

[The French Revolution: A Very Short Introduction](#) William Doyle, 2001-08-23 Beginning with a discussion of familiar images of the French Revolution this work looks at how the ancien régime became ancien as well as examining cases in which achievement failed to match ambition

What the Koran Really Says Ibn Warraq, 2010-10-29 This excellent collection of critical commentaries on the Koran brings together outstanding articles by noted scholars from the beginning of the 20th century to recent times These important studies as well as the editor's own lengthy introduction show that little about the text of the Koran can be taken at face value Among the fascinating topics discussed is evidence that early Muslims did not understand Muhammad's original revelation that the ninth century explosion of literary activity was designed to organize and make sense of an often incoherent text and that much of the traditions surrounding Muhammad's life were fabricated long after his death in an attempt to give meaning to the Koran Also of interest are suggestions that Coptic and other Christian sources heavily influenced much of the text and that some passages reflect an essential background reaching back to the community of the Dead Sea Scrolls This valuable compilation will be a welcome resource to interested lay readers and scholars alike

[Judaism: A Very Short Introduction](#) Norman Solomon, 2014-08-28 Norman Solomon's succinct book is an ideal introduction to Judaism as a religion and way of life Demonstrating the diverse nature and ethnic origin of those with the Jewish faith Solomon explores how the Jewish religion has developed in the 2 000 years since the days of the Bible This Very Short Introduction starts by outlining the basics of practical Judaism its festivals prayers customs and various sects and goes on to consider how Judaism has responded to and dealt with a number of key issues and debates including the impact of the Holocaust and the establishment of the State of Israel In this new edition Solomon considers issues of contemporary Judaism in the twenty first century

The Koran A Very Short Introduction Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Koran A Very Short Introduction has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Koran A Very Short Introduction has opened up a world of possibilities. Downloading The Koran A Very Short Introduction provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Koran A Very Short Introduction has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Koran A Very Short Introduction. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Koran A Very Short Introduction. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Koran A Very Short Introduction, users should also consider the

potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Koran A Very Short Introduction has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About The Koran A Very Short Introduction Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Koran A Very Short Introduction is one of the best book in our library for free trial. We provide copy of The Koran A Very Short Introduction in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Koran A Very Short Introduction. Where to download The Koran A Very Short Introduction online for free? Are you looking for The Koran A Very Short Introduction PDF? This is definitely going to save you time and cash in something you should think about.
