P. MacKenzie,2019-08-08 Since the Second World War depictions of Royal Air Force operations in film and television drama have become so numerous that they make up a genre worthy of scholarly attention In this illuminating study S P MacKenzie explores the different ways in which the men of RAF Bomber Command have been represented in dramatic form on the big and small screen from the war years to the present day Bomber Boys on Screen is the first in depth study of how and why the screen drama image of those who flew those who directed them and those who provided support for RAF bomber operations has changed over time sometimes in contested circumstances Until now dramas that focus on Bomber Command have tended to be mentioned only in passing or studied in isolation despite the prevalence of surveys of both the British war film genre and of aviation cinema In Bomber Boys on Screen MacKenzie examines the development presentation and reception of significant dramas on a decade by decade basis Titles from the beginning of the war *The Lion Has Wings* 1939 to the start of new century Bomber s *Moon* 2014 are situated in the context of technical possibilities and limitations evolving social and cultural norms in the United Kingdom and elsewhere and the development of moral and utilitarian controversies surrounding the wartime bomber offensive directed against Nazi Germany While the focus is on feature films and television plays reference is also made to documentaries memorials veterans organizations book titles war comics and other representations of the war fought by Bomber Command **Voices of World War Two** Sue Elliott,Steve Humphries,2016-05-19 In association with the flagship BBC2 series This is the story of the men and women of a truly remarkable generation Born into a world still reeling from the earth shattering events of the Great War they grew up during the appalling economic depression of the 1930s witnessed the globe tear itself apart again during the Second World War and emerged from post war austerity determined to create a new society for their children It is the story of people who raised their families during the immense social upheaval of the Fifties and Sixties as the world in which they had grown up changed inexorably It is the story of the people who shaped the way we live now Britain s Greatest Generation tells this multi faceted story through the eye witness accounts of those who were there from Japanese prisoner of war Fergus Anckorn to Dame Vera Lynn from Bletchley Park veteran Jean Valentine to Dad s Army creator Jimmy Perry and from fighter pilot Tom Neil to the Queen s cousin Margaret Rhodes Together their testimony creates a vivid often deeply moving picture of an extraordinary epoch and the extraordinary people who lived through it **Dambusters** Douglas C. Dildy,2012-02-20 In May 1943 a specially established RAF squadron made its permanent imprint on military aviation history by flying a high risk low level nighttime attack against German hydro electric dams vital to the Nazi armaments industry in the Ruhr Valley A comparatively tiny part of Air Chief

Marshal Sir Arthur Harris four month long Battle of the Ruhr this one raid had an impact totally out of proportion to the small number of aircraft involved It highlights the synergy of science and technology weapons development and production mission planning and practice and the unflinching courage in the execution of a highly dangerous bombing raid Furthermore it established a legend that still resonates today *One Hundred Patents That Shaped the Modern World* David

P. MacKenzie,2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how

varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II

Dam Buster Richard Morris, 2023-05-04 A stunningly good and surely definitive biography of one of the most fascinating British engineers ever to have lived JAMES HOLLAND Barnes Wallis is remembered for contributions to aviation that spanned most of the 20th century from airships at its start to reusable spacecraft near the end In the years between he pioneered new kinds of aircraft structure bombs to alter the way in which wars are fought and aeroplanes that could change shape in flight Later work extended to radio telescopes prosthetic limbs and plans for a fleet of high speed cargo submarines to travel the world s oceans in silence For all his fame little is known about the man himself Dam Buster draws on family

records to reveal someone thick with contradictions a Victorian who in his imagination ranged far into the 21st century a romantic for whom nostalgic pastoral and advanced technology went together an unassuming man who kept a close eye on his legacy Wallis was last in a line of engineers who combined hands on experience with searching vision Richard Morris sets out to locate him in Britain's grand narrative *The Dambuster's Squadron* Colin Higgs, Bruce Vigar, 2013-05-08 They were the Dambusters the pilots and crew of the RAF's elite 617 Squadron They flew the most difficult missions They breached the Dams They sank the Tirpitz They were the only squadron to drop the immense Grand Slam bombs and with them they destroyed bridges viaducts and even Hitler's impregnable U boat pens In this unique book introduced by Dams raid survivor George Johnny Johnson authors Colin Higgs and Bruce Vigar present no less than nine exclusive interviews with men who flew and fought in 617 Squadron during the Second World War These men took part in virtually every operation the Squadron flew and went on some of the most daring and dangerous missions of the war The result is one of the most vivid and unforgettable accounts of the RAF at war ever written *The High Peak Dambuster* Frank Pleszak, 2022-05-12

Operation Chastise the audacious attack on the dams in the Ruhr valley is arguably one of the most famous airborne attacks in history During the night of 16-17 May 1943 133 men in nineteen specially adapted Lancasters the famous Dambusters set off to attack six dams deep in the heart of Germany Eight of the bombers and 56 of the aircrew did not come home Three of the aircrew who took part were from the High Peak region of Derbyshire Flight Lieutenant Bill Astell the pilot of ED864 who hailed from Coombs near Chapel-en-le-Frith was killed after flying into electricity pylons on the way to the dams The navigator in ED924 Sergeant John Nugent from Stoney Middleton survived the Dambusters Raid but was killed later in the war The third High Peak Dambuster on whom this biography concentrates is the little known Sergeant Jack Marriott from Chinley the flight engineer on Lancaster ED937 during the attack Marriott's Lancaster Z Zebra reached the Mohne Dam only to discover that it had been breached some five bouncing bombs already having been released at it The crew led by Squadron Leader Henry Maudslay DFC then flew on to the Eder Dam where their bouncing bomb exploded beneath the Lancaster after hitting the parapet of the structure The damaged Lancaster struggled homeward but was shot down on the Dutch border Jack together with his crew was killed in the crash In this autobiography Frank Pleszak explores Jack's life his RAF service prior to joining 617 Squadron and then the events leading up to and during Operation Chastise itself But for Jack one the immortal Dambusters his story continued on after that historic night particularly during the filming of the 1955 epic *Dam Busters* in which his aircraft features *The Hutchinson Illustrated Encyclopedia of British History* Simon Hall, 2018-12-07

A Very British Journey Peter Hadden,Iain Chisholm,2024-08-28 Britain is blessed with remarkable scenery and a wealth of history and there is no better way to explore it than on foot Although long distance walking is easy for the young and fit for others it may not be so This is a story of how a group of walkers the majority of whom were in their seventh decade walked from Hampshire to Iona and what they discovered about this spectacular island along the way The book is lavishly illustrated with photographs most of which were taken during the walk The walk was accomplished over one week in May every year for 5 years Timings and routes are detailed and both the human and natural history of the places visited is explored Starting in Hampshire the walkers headed northwest along the Thames through the Cotswolds and into the Midlands Then they followed the Pennines through the Peak District Yorkshire Dales and the Northumbrian hinterland From Lindisfarne the walkers headed to Scotland traversing in turn the Borders Southern Uplands Glasgow Western Highlands and over to Iona via Mull All were amazed at how much ground could be covered and all returned with a much deeper understanding of Britain than when they had
