This groundbreaking collection features works that refine our understanding of the genesis and evolution of biofiction, theorize its unique and distinctive modes of signifying, reflect on its value for the future and social justice, chart new approaches for doing biofictional analysis and offer insights from authors of biofiction into the creative process. It will be essential reading for students as well as advanced scholars interested in biographical fiction.

The Widening Circle of Us Peter Francis, 2021-09-03 The Widening Circle of Us is personal, political and theological.

Peter Francis charts his own widening from a privileged beginning with an unquestioning naïve faith to a liberal understanding of faith and society. He now believes that Christianity is best viewed as a completely non-supernatural ethic for life. The memoir weaves his personal story alongside his passion for the humanity of Jesus and writes about the battles for inclusion that have shaped his life and ministry. It is an honest reflection on his life as a priest in England, Scotland and Wales, including nearly 25 years as Warden of Gladstone's Library, where his widening continues with responding to the Gladstone legacy of historic slavery in the wake of Black Lives Matter.
