The Making Of The Odyssey:

The Making of the Odyssey Martin Litchfield West, 2014 The poet of the Odyssey was a seriously flawed genius He had a wonderfully inventive imagination a gift for pictorial detail and for introducing naturalistic elements into epic dialogue and a grand architectural plan for the poem He was also a slapdash artist often copying verses from the Iliad or from himself without close attention to their suitability With various possible ways of telling the story bubbling up in his mind he creates a narrative marked by constant inconsistency of detail He is a fluent composer who delights in prolonging his tale with subsidiary episodes yet his deployment of the epic language is often inept and sometimes simply unintelligible The Making of the Odyssey is a penetrating study of the background composition and artistry of the Homeric Odyssey Martin West places the poem in its late seventh century context in relation to the Iliad and other poetry of the time He also investigates the traditions that lie behind it the origins of the figure of Odysseus and folk tales such as those of the One eyed Ogre and the Husband s Return

vibrancy creating the most captivating rendition of one of the defining masterpieces of Western literature *Arete and the Odyssey's Poetics of Interrogation* Justin Arft, 2022-09-01 *Arete and the Odyssey's Poetics of Interrogation* explores how the enigmatic Phaeacian queen Arete is at the heart of an epic scale poetics of interrogation used throughout the *Odyssey* to negotiate Odysseus' kleos or epic renown. Arete's interrogation of Odysseus has been especially problematic in scholarship but diachronic and synchronic analysis of similar interrogations across Indo-European Orphic and Greek epigrammatic corpora show that the stranger's interrogation is a formula that demands performance and negotiation of status. Within the *Odyssey* this interrogation is part of an intraformular network used to generate kleos and the queen's question initiates the longest and most complex negotiation of Odysseus' status in epic and memory. Arete's role as interrogator not only explains her strange authority and resonance with both Penelope and comparative afterlife figures but it also establishes a gendered agonistic tension between she and her husband Alkinoos that influences the structure, genre, and narratology of performances across the Phaeacian episode. This book reinterprets the *Odyssey*'s central episode and challenges several assumptions about Nausikaa and Alkinoos' famed hospitality even demonstrating how the Apologue is organized as a response to competing inquiries into Odysseus' fundamental status in tradition. The *Odyssey* ultimately navigates away from Odysseus' public reputation and roots his status in private memories and Arete's carefully arranged interventions signal the larger process by which the *Odyssey* immortalizes Odysseus in poetry as a nostos hero. The queen and her question invite new applications of oral poetics that shed light on the structure, composition, and reperformance of the *Odyssey*. **Simulation and Serious Games for Education** Yiyu Cai, Sui Lin Goei, Wim Trooster, 2016-10-11 This book introduces state-of-the-art research on simulation and serious games for education. The major part of this book is based on selected work presented at the 2014 Asia Europe Symposium on Simulation and Serious Games held in Windesheim University of Applied Sciences, the Netherlands, Oct 1-2, 2014. It covers three major domains of education applications that use simulation and serious games: Science, Technology, Engineering, and Mathematics; STEM Education; Special Needs Education; and Humanity and Social Science. Education Researchers and developers in simulation and serious games for education benefit from this book, and it also offers educators and professionals involved in training insights into the possible applications of simulation and serious games in various areas. The *Odyssey*, 2014-05-01 Poet and Homeric scholar Barry B. Powell offers a major new translation of this enduring epic poem. Personified Mountains in Ancient Canonical Narratives Eric J. P. Wagner, 2025-11-17 The Art and Culture of Early Greece, 1100-480 B.C. Jeffrey M. Hurwit, 1985 This handsomely illustrated book offers a broad synthesis of Archaic Greek culture. Unlike other books dealing with the art and architecture of the Archaic period, it places these subjects in their historical, social, literary, and intellectual contexts. Origins and originality constitute a central theme for this period: representational and narrative art, monumental sculpture and architecture, epic lyric and dramatic poetry, the city-state, polis, tyranny, and early democracy, and natural philosophy were all born. *Metamorphoses of Helen* Mihoko

Suzuki,1989 Mihoko Suzuki sheds light on a literary tradition that seemingly holds Helen of Troy and her descendants responsible for causing epic conflicts while it appropriates the woman s perspective as a source of insight and poetic power A superb study of *The Origins of the Law in Homer* Shulamit Almog,2022-03-07 The book aims to introduce the Homeric oeuvre into the law and literature canon It argues for a reading of Homer s The Iliad and The Odyssey as primordial narratives on the significance of the rule of law The book delineates moments of correspondence between the transition from myth to tragedy and the gradual transition from a social existence lacking formal law to an institutionalized legal system as practiced in the polis It suggests the Homeric epics are a significant milestone in the way justice and injustice were conceptualized and testify to a growing awareness in Homer s time that mechanisms that protect both individuals and the collective from acts of unbridled rage are necessary for the continued existence of communities The book fills a considerable gap in research on ancient Greek drama as well as in discourses about the intersections of law and literature and by doing so offers new insights into two of the foundational texts of Western culture **Homer and the Epic** Andrew Lang,1893

The Image of the Artist in Archaic and Classical Greece Guy Hedreen,2016 This book explores the persona of the artist in Archaic and Classical Greek art and literature Guy Hedreen argues that artistic subjectivity first expressed in Athenian vase painting of the sixth century BCE and intensively explored by Euphronios developed alongside a self consciously constructed persona of the poet He explains how poets like Archilochos and Hipponax identified with the wily Homeric character of Odysseus as a prototype of the successful narrator and how the lame yet resourceful artist god Hephaistos is emulated by Archaic vase painters such as Kleitias In lyric poetry and pictorial art Hedreen traces a widespread conception of the artist or poet as socially marginal sometimes physically imperfect but rhetorically clever technically peerless and a master of fiction Bringing together in a sustained analysis the roots of subjectivity across media this book offers a new way of studying the relationship between poetry and art in ancient Greece *Classical Myth and Culture in the Cinema* Martin M.

Winkler,2001-06-21 *Classical Myth and Culture in the Cinema* is a collection of essays presenting a variety of approaches to films set in ancient Greece and Rome and to films that reflect archetypal features of classical literature The diversity of content and theoretical stances found in this volume will make it required reading for scholars and students interested in interdisciplinary approaches to text and image and for anyone interested in the presence of Greece and Rome in modern popular culture **The Cambridge Companion to the Epic** Catherine Bates,2010-04-22 Every great civilisation from the Bronze Age to the present day has produced epic poems Epic poetry has always had a profound influence on other literary genres including its own parody in the form of mock epic This Companion surveys over four thousand years of epic poetry from the Babylonian Epic of Gilgamesh to Derek Walcott s postcolonial Omeros The list of epic poets analysed here includes some of the greatest writers in literary history in Europe and beyond Homer Virgil Dante Cam es Spenser Milton Wordsworth Keats and Pound among others Each essay by an expert in the field pays close attention to the way these writers have

intimately influenced one another to form a distinctive and cross cultural literary tradition Unique in its coverage of the vast scope of that tradition this book is an essential companion for students of literature of all kinds and in all ages **Thinking the Greeks** Bruce M. King, Lillian Doherty, 2018-07-27 This volume from an international and interdisciplinary cohort of scholars offers independent minded essays about central Greek texts and about the relation of social theory and comparative method to the study of archaic and classical Greek literature It is in honour of James M Redfield whose innovative and theoretically informed work has been a touchstone for the contributors it includes an Introduction that discusses Redfield s work as well as a complete Bibliography of Redfield s scholarship The volume is divided into three parts on Homer Plato in conversation with epic tragedy and comedy and finally reception and transmission An exploration of the dialectical relationship between literary genre and social form animates many of the essays Drawing on work in anthropology linguistics sociology art history and philosophy this volume offers ground breaking perspectives on the study of Greek literature It will be an invaluable resource to students and researchers alike *The Encyclopedia of Epic Films* Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* 1939 and *Lawrence of Arabia* 1962 have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale **The Selected Works of Andrew Lang** Andrew Lang, When the learned first gave serious attention to

popular ballads from the time of Percy to that of Scott they laboured under certain disabilities The Comparative Method was scarcely understood and was little practised Editors were content to study the ballads of their own countryside or at most of Great Britain Teutonic and Northern parallels to our ballads were then adduced as by Scott and Jamieson It was later that the ballads of Europe from the Faroes to Modern Greece were compared with our own with European M rchen or children s tales and with the popular songs dances and traditions of classical and savage peoples The results of this more recent comparison may be briefly stated Poetry begins as Aristotle says in improvisation Every man is his own poet and in moments of strong emotion expresses himself in song A typical example is the Song of Lamech in Genesis I have slain a man to my wounding And a young man to my hurt Instances perpetually occur in the Sagas Grettir Egil Skarphedin are always singing In Kidnapped Mr Stevenson introduces The Song of the Sword of Alan a fine example of Celtic practice words and air are beaten out together in the heat of victory In the same way the women sang improvised dirges like Helen lullabies like the lullaby of Danae in Simonides and flower songs as in modern Italy Every function of life war agriculture the chase had its appropriate magical and mimetic dance and song as in Finland among Red Indians and among Australian blacks The deeds of men were chanted by heroes as by Achilles stories were told in alternate verse and prose girls like Homer s Nausicaa accompanied dance and ball play priests and medicine men accompanied rites and magical ceremonies by songs These practices are world wide and world old The thoroughly popular songs thus evolved became the rude material of a professional class of minstrels when these arose as in the heroic age of Greece A minstrel might be attached to a Court or a noble or he might go wandering with song and harp among the people In either case this class of men developed more regular and ample measures They evolved the hexameter the laisse of the Chansons de Geste the strange technicalities of Scandinavian poetry the metres of Vedic hymns the choral odes of Greece The narrative popular chant became in their hands the Epic or the mediaeval rhymed romance The metre of improvised verse changed into the artistic lyric These lyric forms were fixed in many cases by the art of writing But poetry did not remain solely in professional and literary hands The mediaeval minstrels and jongleurs who may best be studied in Leconte de Lisle s Introduction to his Epopees Francaises sang in Court and Camp The poorer less regular brethren of the art harped and played conjuring tricks in farm and grange or at street corners The foreign newer metres took the place of the old alliterative English verse But unprofessional men and women did not cease to make and sing

The Reality Effect Joel Black, 2013-08-21 It used to be only movies were on film now the whole world is The most intimate and most banal moments of our lives are constantly recorded for public consumption In *The Reality Effect* Joel Black argues that the desire to make visible every aspect of our lives is an impulse derived from cinema one that has made life both more graphic and less real He approaches film as a documentary medium that has obscured if not obliterated the line between reality and fiction To illustrate this effect Black traces the uncanny interplay between movies and real life events through a series of comparative analyses from *Lolita* and the murder of JonBen

t Ramsey to Wag the Dog and the Clinton scandal to Crash and Princess Diana s violent death *The winnowing oar - New Perspectives in Homeric Studies* Christos Tsagalis, Andreas Markantonatos, 2017-10-10 In the wake of recent advances in the treatment of longstanding problems pertaining to the interpretation of Homeric poetry this volume brings together cutting edge research from a cohort of acclaimed scholars on Homer and the Homeric Hymns The variety of topics covered spans the entire field of Homeric philology the methods and solutions provided for a new edition of the Odyssey the puzzle of the relation between the festival of the Panathenaea and the Homeric text the disclosure of the meaning of notorious cruces pertaining to arcane formulas the two emblematic heroes of the Iliad and the Odyssey Achilles and Odysseus Homeric poetics the range and use of repetition in a traditional medium the composition of the Homeric epics the Apologoi and Cyclic Narrative as well as the Homeric Hymns to Hermes and Aphrodite
