A Disturbance in the Force Steve Kozak, 2023-11-15 Bea Arthur as the owner of the Mos Eisley Cantina Long scenes entirely of Wookies bleating at each other without subtitles Harvey Korman in drag as a four armed Space Julia Child Six minutes of Jefferson Starship performing for Art Carney and a bored Imperial Guard Mark Hamill fresh from his near fatal motorcycle accident slathered in pancake makeup A salacious holographic burlesque from Diahann Carroll Even by the standards of the 1970s even compared to Jar Jar Binks the legendary 1978 Star Wars Holiday Special is a peerlessly cringeworthy pop culture artifact George Lucas who completely disowned the production reportedly has said If I had the time and a sledgehammer I would track down every copy of that show and smash it Just how on earth did this thing ever see the light of day To answer that question as Steven Kozak shows in this fascinating and often hilarious inside look into the making of the Special you have to understand the cultural moment in which it appeared a long long time ago when cheesy variety shows were a staple

of network television and Star Wars was not yet the billion dollar multimedia behemoth that it is today Kozak explains how the Special was one piece of a PR blitz undertaken by Lucas and his colleagues as they sought to protect the emerging franchise from hostile studio executives He shows how despite the involvement of some of the most talented people in the business creative differences between movie and television writers led to a wildly uneven product He gives entertaining accounts of the problems that plagued production which included a ruinously expensive cantina set the acrimonious departure of the director and Lucas himself and a furious Grace Slick just out of rehab demanding to be included in the production Packed with memorable anecdotes drawing on extensive new interviews with countless people involved in the production and told with mingled affection and bewilderment this never before told story gives a fascinating look at a strange moment in pop culture history that remains an object of fascination even today

The Orientation of Future Cinema Bruce Isaacs, 2013-02-14 What is the fate of cinema in an age of new technologies, new aesthetic styles, new modes of cultural production and consumption? What becomes of cinema and a century-long history of the moving image when the theatre is outmoded as a social and aesthetic space, as celluloid gives over to digital technology, as the art house and multiplex are overtaken by a proliferation of home entertainment systems? *The Orientation of Future Cinema* offers an ambitious and compelling argument for the continued life of cinema as image, narrative, and experience. Commencing with *Lumière's Arrival of a Train at a Station*, Bruce Isaacs confronts the threat of contemporary digital technologies and processes by returning to cinema's complex history as a technological and industrial phenomenon. The technology of moving images has profoundly changed, and yet cinema materialises ever more forcefully in digital capture and augmentation, 3D perception, and affect. High Frame Rate cinema and the evolution of spectacle as the dominant aesthetic mode in contemporary studio production.
