Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Corrupted* Jonathan D Jansen,2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death

Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly [Human Resources for the Non-HR Manager](#) Carol T. Kulik, Elissa L. Perry, 2023-05-02

[Human Resources for the Non HR Manager](#) gives every manager regardless of their functional role access to cutting edge research and evidence based recommendations so they can approach their people management responsibilities with confidence Day to day people management is increasingly the responsibility of front line managers not HR professionals But managers are often poorly prepared for these responsibilities they receive little training and sometimes have little interest in HR People management is never easy and it is particularly challenging in COVID 19's next normal workplace where managers must engage diverse employees across a wide range of working arrangements This book focuses on the special relationship that line managers have with their employees and describes managers responsibilities across the entire employee lifecycle from front end recruiting and hiring through to long term retention The content is grounded in rigorous academic research but the book's conversational tone conveys basic principles without technical jargon Each chapter includes Manager's Checkpoints to help readers apply the material to their own workplace and Manager's Knots that address gray areas inherent in people management The book is designed for any reader currently working as a line manager or aspiring to a managerial role who wants to improve their people management skills Combined with a complete instructor package the book provides different types of activities to accompany each chapter Some Assembly Required In the News and Undercover Manager The activities can be found in the Instructor Resources Download Hub and are designed to align with student cohorts with varying levels of experience [Neural Information Processing](#) Sabri Arik, Tingwen Huang, Weng Kin

the question on many South Africans lips Will we become more prosperous and less divided as a nation or remain hugely unequal and generally poor Will the ANC split or eventually be forced into an alliance with the EFF after 2019 Could the DA rule the country after the 2024 elections In Fate of the Nation Jakkie Cilliers develops three scenarios for our immediate future and beyond Bafana Bafana Nation Divided and Mandela Magic Cilliers says the ANC is currently paralysed by the power struggle between what he calls the Traditionalists and the Reformers It is this power struggle that has led to the inept leadership policy confusion and poor service delivery that has plagued the country in recent years Key to which scenario could become our reality is who will be elected to the ANC s top leadership at the party s national conference in December 2017 Whichever group wins there will determine what our future looks like This is a book for all concerned South Africans

To Swim with Crocodiles Jill E Kelly,2018-06-01 To Swim with Crocodiles Land Violence and Belonging in South Africa 1800 1996 offers a fresh perspective on the history of rural politics in South Africa from the rise of the Zulu kingdom to the civil war at the dawn of democracy in KwaZulu Natal The book shows how Africans in the Table Mountain region drew on the cultural inheritance of ukukhonza a practice of affiliation that binds together chiefs and subjects to seek social and physical security in times of war and upheaval Grounded in a rich combination of archival sources and oral interviews this book examines relations within and between chiefdoms to bring wider concerns of African studies into focus including land violence chieftaincy ethnic and nationalist politics and development Colonial indirect rule segregation and apartheid attempted to fix formerly fluid polities into territorial tribes and ethnic identities but the Zulu practice of ukukhonza maintained its flexibility and endured By exploring what Zulu men and women knew about and how they remembered ukukhonza Kelly reveals how Africans envisioned and defined relationships with the land their chiefs and their neighbors as white minority rule transformed the countryside and local institutions of governance
