Realizing Business Model Innovation Martin Trapp, 2014-02-06 Today's profound environmental dynamics render it increasingly difficult for firms to sustain business models with returns above the industry average. Business model innovation aims to seize a new opportunity by crafting the right new business model. It offers firms a path back to high returns and profitable growth. However, risk aversion and organizational rigidities may immobilize established industry players. Martin Trapp employs an explorative multiple case study covering large European corporations to identify management practices. These practices support business unit managers in successfully realizing business model innovation and together establish a deliberate strategic level management approach. **The Innovation Navigator** Tucker J. Marion, Sebastian

Fixson, 2025-10-28 The Innovation Navigator returns with a revised edition and a fresh look at the shifting landscape of modern innovation.
