

Name _____ ANSWER KEY _____ Date _____ Period _____

POPULATIONS & RESOURCES UNIT TEST

Use the following word bank to complete the sentences.

Word Bank

food web, reproduce, resource, organisms, consumer, increase, decrease, stable

1. Within a population organisms are always being born and dying.
2. If the number of births and deaths in a given time are equal, then the population size will be stable.
3. If there are more births than deaths in a given time, then the size of the population will increase.
4. If there are fewer births than deaths, then the size of the population will decrease.
5. The more energy storage molecules available to a population, the more the organisms in that population can reproduce.
6. The larger the resource population, the more energy storage molecules are available for its consumer populations.
7. Two populations can compete for the same resource population. A change to one of these populations affects the size of the other.
8. The size of a population can be affected by any population that is connected to it in a food web, even if they are not directly connected.

Complete the following multiple choice questions by circling the best answer.

9. A population of geckos lives in the southwestern United States. Over 50 years, the size of the gecko population in the region increased. What best explains the increase in the size of the gecko population?
 - a. Fewer geckos were born than died.
 - b. More geckos were born than died.
 - c. The gecko population is always increasing because no animal eats geckos.
10. What does a bird such as an eagle need energy for?
 - a. flying
 - b. breathing
 - c. digesting food
 - d. all of the above
