Unit Chapter 2the Cold War:

RAF Canberra Units of the Cold War Andrew Brookes,2014-06-20 A detailed history of the Canberra which saw considerable service as a photo reconnaissance platform for no fewer than 19 squadrons from the early 1950s through to 2006 From its first public demonstration at the Farnborough Airshow of 1949 the English Electric Canberra bomber captured the attention of the aviation world It could outmanoeuvre all the fighters of the time and it could climb way above their operating ceilings Yet this Cold War equivalent of the Mosquito was simple to maintain and a delight to fly although it could bite any pilot who did not treat it with respect The Canberra B 2 first flew on 21 April 1950 and entered frontline service with No 101 Sqn in May 1951 In a testament to the aircraft's benign handling characteristics the transition programme consisted of only 20 hours in the Gloster Meteor and three hours in the dual control Canberra trainer With a maximum speed of 470 knots 871 km/h a standard service ceiling of 48 000 ft 14 600 m and the ability to carry a 3 6 tonne 7 900 lb payload the Canberra was an instant success Here is its story *Valiant Units of the Cold War* Andrew Brookes,2012-08-20 The RAF's first Cold War strategic bomber the Vickers Valiant was procured as an insurance measure in case either the Vulcan or Victor was found to have a serious flaw The Valiant was the equivalent of the US B 47 Stratojet and it blazed the trail for the British airborne nuclear deterrent as the aircraft enjoyed a far more active service career than later V bombers It was the launch platform for all British free fall nuclear weapons tests both in the Pacific and in central Australia it took part in the Suez campaign in 1956 and it was the only V bomber to drop conventional weapons in anger until the Falklands operation in 1982 The Valiant was modified to serve in the electronic warfare strategic reconnaissance and airborne tanker role but it had to be grounded in early 1965 when the aircraft succumbed to metal fatigue Featuring photographs throughout as well as detailed profile artwork this volume explores the entire history of this aircraft Edexcel GCSE Modern World History Revision Guide 2nd edition Ben Walsh,Steve Waugh,2014-09-26 Achieve your best with this motivating revision guide packed with tips and opportunities to practise for the exam This guide meets the core requirements of the latest Edexcel specification Written by expert author Ben Walsh it not only includes helpful analysis primary secondary sources and review materials but also fosters active and effective revision to help you reach your highest potential Review all the key content of the Edexcel course with just the right amount of detail Keep on track with exam requirements with exam tips throughout Complete tasks which enhance your understanding and revision methods CONTENTS Unit 1 Peace and War International Relations 1900 91 Chapter 1 Why did war break out in 1914 International rivalry 1900 14 Chapter 2 The peace settlement 1918 29 Chapter 3 Why did war break out in 1939 International relations 1929 39 Chapter 4 How did the Cold War develop 1943 56 Chapter 5 Three Cold War crises Berlin Cuba and Czechoslovakia c 1957 69 Chapter 6 Why did the Cold War end The invasion of Afghanistan to the collapse of the Soviet Union 1979 91 Unit 2 Modern World Depth Studies Chapter 7 Germany 1918 39 Chapter 8 Russia 1917 39 Chapter 9 The USA 1919 41 Unit 3 Modern World Source Enquiry Chapter 10 War and the

Essays on the Cold War Murray Wolfson,2016-07-27 This book is concerned with the ideological origins of the cold war and how it was fought by economic means The book revolves around four major themes Firstly it is argued that the origin of the cold war is not to be found in rational economic motivation but in ideology through which both the East and West perceived reality Secondly these ideological preconceptions generated complex feed back processes of hostility that lasted forty years Thirdly although this hostility was expressed in political ideological and military terms the decisive battle was fought in economic terms as each nation devoted resources to unproductive military purposes Finally the end of the cold war came with the collapse of the dysfunctional Soviet economy Although the Soviets lost the cold war in the light of the ascendancy of its competitors the United States did not win it

Cuisine, Colonialism and Cold War Katarzyna J. Cwiertka,2013-06-01 When you consider the size of Korea s population and the breadth of its territory it s easy to see that this small region has played a disproportionately large role in twentieth century history The peninsula has experienced colonial submission at the hands of Japan occupation by the United States and the Soviet Union war and a national division that continues today Cuisine Colonialism and Cold War traces these developments as they played out in an unusual sphere Korea s national cuisine which is savored for its diversity of ingredients and flavor Katarzyna J Cwiertka shows that many foods and dietary practices identified as Korean have been created or influenced by its colonial encounters and she uncovers how the military and the Cold War had an impact on diet in both the North and South Surveying the

manufacture and consumption of rice and soy sauce the rise of restaurants wartime food and the 1990s famine that still affects North Korea Cwiertka illuminates the persistent legacy of Japanese rule and the consequences of armed conflicts and the Cold War Bringing us closer to the Korean people and their daily lives this book shines new light on critical issues in the social history of this peninsula

B-36 'Peacemaker' Units of the Cold War Peter E. Davies, 2022-03-17 A fully illustrated study into the extraordinary Convair B 36 during the Cold War Conceived during 1941 in case Germany occupied Britain when US bombers would then have insufficient range to retaliate the B 36 was to be primarily a 10 000 mile bomber with heavy defensive armament six engines and a performance that would prevent interception by fighters Although rapid developments in jet engine and high speed airframe technology quickly made it obsolescent the B 36 took part in many important nuclear test programmes The aircraft also provided the US nuclear deterrent until the faster B 52 became available in 1955 It was one of the first aircraft to use substantial amounts of magnesium in its structure leading to the bomber's Magnesium Overcast nickname It earned many superlatives due to the size and complexity of its structure which used 27 miles of wiring had a wingspan longer than the Wright brothers first flight equivalent engine power to 400 cars the same internal capacity as three five room houses and 27 000 gallons of internal fuel enough to propel a car around the world 18 times Much was made of the fact that the wing was deep enough to allow engineers to enter it and maintain the engines in flight B 36s continued in the bomber and reconnaissance role until their retirement in February 1959 following 11 years in SAC Convair employees were invited to suggest names for the giant aircraft eliciting suggestions such as King Kong Bomber Condor Texan and Unbelievable but the most popular was Peacemaker Oddly objections from religious groups deterred the USAF from ever adopting it officially This fully illustrated volume includes first hand accounts original photographs and up to 30 profile artworks depicting in detail the complexity of this superlative aircraft

F-104 Starfighter Units in Combat Peter E. Davies, 2014-11-20 This title covers the technical characteristics of the F 104 Starfighter one of the most widely used and popular aircraft in history Although built in small numbers for the USAF the F 104C fought and survived for almost three years in Vietnam There it was engaged in some of the war's most famous battles including the legendary operation Bolo where seven North Vietnamese MiGs were destroyed without the loss of a single US fighter This small tough and very fast fighter dubbed The Missile with a Man in It was called upon to do things it was not specifically designed for and did them admirably Featuring illustrations and photographs detailing the variety of nose paint schemes and weapons configurations this comprehensive appraisal of the F 104 Starfighter is ideal for modelling and aviation enthusiasts alike

Literature for Young Adults Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited

to young adult readers It also looks at the ways in which contemporary readers access and share the works they re reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book s discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books It will help readers teach young adults the language they need to articulate their responses to the books they are reading

Resources in Education ,1998 Human Rights in Libya Giacomina De Bona,2013 Since the end of the Cold War a democratic wave has swept through large parts of the world propagating liberal values and giving impetus to the case for human rights in an international society To date however the promotion of human rights has presented a mixed account with some countries lagging behind others in terms of their observance In an effort to account for these differences this book analyzes the relationship between norms and the social construction of international society and examines how human rights are promoted in that context Focussing on Libya as a case study Giacomina De Bona criticises the neo realist approach by demonstrating the impact of international society on the advancement of human rights Libya has related to the international environment in different ways over time ranging from isolation to reconciliation and regime change making it a particularly interesting example This book is of particular relevance in light of the recent Arab Spring and raises the question as to whether the coercive imposition of the Western liberal model contributes to establishing respect for human rights in what continue to be the peripheral zones of international society
