The Letter Bearer:

The Letter Bearer Robert Allison, 2017-02-14 The Rider has no memory of who he is where he is or how he came to be lying dying in the brutal heat of the North African desert Rescued by a band of deserters the Rider begins to piece together his identity based on shards of recollection and the letters in his mailbag The Letter Bearer is unlike any other novel of World War Two In the midst of profound trauma terrible warfare and the nameless experience of desertion this gripping story asks us to consider how men build hope when they have nothing left not even a name When first published last year in London Robert Allison's debut novel was met with wide praise and was nominated for the Desmond Elliott Prize described by one of its judges as An excellent and elegant novel written with patience and authority Readers of Michael Ondaatje and Paul Bowles will find the landscape familiar but no reader will ever forget the haunting and haunted story of this remarkable victim

The Letter Bearer Robert Allison, 2014 The Rider has no memory of who he is or how he came to be lying dying in the brutal heat of the North African desert Rescued by a band of deserters the Rider begins to piece together his identity based on shards of recollection and the letters in his post bag The Letter Bearer is unlike any other novel of World War Two It asks profound questions about trauma warfare and the experience of desertion This gripping story asks us to consider how men build hope when they have nothing left not even a name

The Letter Bearer Nicholas Kay, 2009-11-18 **Pope Gregory's Letter-Bearers** John R. C. Martyn, 2012-04-25 With the Lombards invading Italy and Slavs invading Illyria and very active slave dealers at work the number of men and women who reached Rome and carried a papal letter to sort out a legal or personal problem at home is quite surprising considering the slowness and the very real dangers of often long journeys in boats or on horseback They came from all over the civilized world many briefly appearing on the stage their mission quite often not reported later on Page 4 of cover

Embodied Performance Sarah Agnew, 2020-09-22 Embodied Performance presents a methodology by which performer interpreters can bring their intuitive interpretations to the scholarly conversations about biblical compositions It may not be comfortable for scholarship is out of practice in listening to emotion and intuition It may not be the only way to bring the fullness of human meaning making into scholarly discussions It is a beginning as Sarah Agnew storyteller and scholar places herself as the subject and object under examination observing her practice as a biblical storyteller making meaning through embodied performance and develops a coherent method rigorously tested with an Embodied Performance Analysis of Romans Follow Sarah's story as she searches within Biblical Performance Criticism for such a method before determining the need to strike out in a new direction from within an already innovative field All biblical scholars are complex human beings making meaning through their embodiment their emotions their embeddedness in community Embodied Performance Analysis offers a way to attend to and incorporate the full range of human meaning making in our engagement with biblical compositions for richer discussion closer to the intent of the compositions themselves

The Opened Letter Lindsay O'Neill, 2015 By the early eighteenth century the rapid expansion of the British empire had created a technological problem communication and networking became increasingly vital yet harder to maintain As colonial possessions and populations grew and more individuals moved around the globe Britons both at home and abroad required a constant and reliable means of communication to conduct business plumb intellectual concerns discuss family matters run distant estates and exchange news As face to face communication became more intermittent men and women across the early modern British world relied on letters In The Opened Letter historian Lindsay O'Neill explores the importance and impact of networking via letter writing among the members of the elite from England Ireland and the colonies Combining extensive archival research with social network digital technology The Opened Letter captures the dynamic associations that created a vibrant expansive and elaborate web of communication The author examined more than 10 000 letters produced by such figures as Virginia planters William Byrd I and his son William Byrd II the Anglo Irish nobleman John Perceval the newly minted Duke of Chandos James Brydges and his wife Cassandra Brydges and Sir Hans Sloane the president of the Royal Society and his colleague Peter Collinson She also mined letters from the likes of Nicholas Blundell a Catholic member of the Lancashire gentry and James Eliot a London merchant and ardent Quaker The Opened Letter reassembles and presents the vital individual and interlocking epistolary

webs constructed by disparate groups of letter writers These early social networks illuminate the structural social and geographic workings of the British world as the nation was becoming a dominant global power

Women Letter-Writers in Tudor England James Daybell, 2018-09-26 This book represents the most comprehensive study of women's letters and letter writing during the early modern period so far undertaken and acts as an important corrective to traditional ways of reading and discussing letters as private elite male and non political Based on over 3 000 manuscript letters it shows that letter writing was a larger and more socially diversified area of female activity than has been hitherto assumed In that letters constitute the largest body of extant sixteenth century women's writing the book initiates a reassessment of women's education and literacy in the period As indicators of literacy letters yield physical evidence of rudimentary writing activity and abilities document higher forms of female literacy and highlight women's mastery of formal rhetorical and epistolary conventions The book also stresses that letters are unparalleled as intimate and immediate records of family relationships and as media for personal and self reflective forms of female expression Read as documents that inscribe social and gender relations letters shed light on the complex range of women's personal relationships as female power and authority fluctuated negotiated on an individual basis Furthermore correspondence highlights the important political roles played by early modern women Female letter writers were integral in cultivating and maintaining patronage and kinship networks they were active as suitors for crown favour and operated as political intermediaries and patrons in their own right using letters to elicit influence Letters thus help to locate differing forms of female power within the family locality and occasionally on the wider political stage and offer invaluable primary evidence from which to reconstruct the lives of early modern women
