year course of the Church's battle against Judaism and faces the crisis of faith it has provoked in his own life as a Catholic. More than a chronicle of religion, this dark history is the central tragedy of Western civilization, its fault lines reaching deep into our culture. The Church's failure to protest the Holocaust, the infamous silence of Pius XII, is only part of the story; the death camps Carroll shows are the culmination of a long, entrenched tradition of anti-Semitism. From Gospel accounts of the death of Jesus on the cross to Constantine's transformation of the cross into a sword to the rise of blood libels, scapegoating, and modern anti-Semitism, Carroll reconstructs the dramatic story of the Church's conflict, not only with Jews but with itself. Yet in tracing the arc of this narrative, he implicitly affirms that it did not necessarily have to be so. There were roads not taken, heroes forgotten, new roads can be taken yet. Demanding that the Church finally face this past in full, Carroll calls for a fundamental rethinking of the deepest questions of Christian faith. Only then can Christians, Jews, and all who carry the burden of this history begin to forge a new future. Carroll discusses the history of Christian-Jewish relations honestly, touchingly, and personally. Carroll investigates his own prejudices as a believing Christian, a former Catholic priest, and a long-time civil rights activist. As he unearths history using all the best sources, he also encounters emotions he didn't realize he had, and shows how his historical journey was also a personal pilgrimage of faith.

Booklist A triumph Atlantic Monthly **The Metaphysical World of Isaac Newton** John Chambers, 2018-02-13 Newton's heretical yet incisive writings on theology, spirituality, alchemy, and prophecy, written in secret alongside his *Principia Mathematica*. Shows how Newton's brilliance extended far beyond math and science into alchemy, spirituality, prophecy, and the search for lost continents such as Atlantis. Explains how he was seeking to rediscover the one true religion that existed prior to the Flood of Noah, when science and spirituality were one. Examines Newton's alternate timeline of prehistory and his study of prophecy through the Book of Revelations, including his prediction of Apocalypse in the year 2060. Isaac Newton (1643-1727) is still regarded by the world as the greatest scientist who ever lived. He invented calculus, discovered the binomial theorem, explained the rainbow, built the first reflecting telescope, and explained the force of gravity. In his famous masterpiece, *Principia Mathematica*, he described the mechanics of the physical universe with unimagined precision, proving the cosmos was put together according to laws. The perfection of these laws implied a perfect legislator. To Newton, they were proof that God existed. At the same time, Newton was writing *Principia Mathematica*; he was writing a twin volume that he might have called, had it been completed, *Principia Theologia*, *Principles of Theology*. This other masterpiece of Newton, kept secret because of the heresies it contained, consists of thousands of essays providing incisive answers to the spiritual questions that have plagued mankind through the ages. Examining Newton's secret writings, John Chambers shows how his brilliance extended into alchemy, spirituality, the search for lost continents such as Atlantis, and a quest to uncover the corrupted texts that were rife in the Bibles of his time. Although he was a devout Christian, Newton's work on the Bible was focused not on restoring the original Jewish and Christian texts but on rediscovering the one true religion that existed prior to the Flood of Noah, when science

and spirituality were one The author shows that a single thread runs through Newton s metaphysical explorations He is attempting to chart the descent of man s soul from perfection to the present day The author also examines Newton s alternate timeline of ancient history and his study of prophecy through the Book of Revelations including his prediction of an Apocalypse in the year 2060 followed by a radically transformed world He shows that Newton s great hope was that these writings would provide a moral compass for humanity as it embarked upon the great enterprise that became our technological world

**The Sacred Writings of Eusebius Pamphilus (Annotated Edition)** St. Pamphilus,2012 The Sacred Writings Of provides you with the essential works among the Early Christian writings The volumes cover the beginning of Christianity until before the promulgation of the Nicene Creed at the First Council of Nicaea This volume is accurately annotated including an extensive biography of the author and his life This edition comprises the following works The Church History or Ecclesiastical History Eusebius and Pamphilus wrote the first surviving history of the Christian Church as a chronologically ordered account based on earlier sources complete from the period of the Apostles to their own epoch This historical account has much of Eusebius s own theological agenda intertwined with the factual text including his view on God Christ the Scriptures the Jews the church pagans and heretics The Life of Constantine Vita Constantini is a eulogy or panegyric and therefore its style and selection of facts are affected by its purpose rendering it inadequate as a continuation of the Church History As the historian Socrates Scholasticus said at the opening of his history that was designed as a continuation of Eusebius Also in writing the life of Constantine this same author has but slightly treated of matters regarding Arius being more intent on the rhetorical finish of his composition and the praises of the emperor than on an accurate statement of facts The work was unfinished at Eusebius death Some scholars have questioned the Eusebian authorship of this work Oration in Praise of Constantine an eulogy

[Elitism and the Approach to God](#) Robin Raybould,2025-07-24 Elitism and the Approach to God investigates a historical and cultural dichotomy in European history which has not hitherto been satisfactorily explained Why did so many of the most influential authorities of the age insist that the nature and mystery of the divine and of God should not be shared with the vulgar crowd that is with the ordinary people although this appears to be

the principal purpose of all other religious teaching throughout the period Robin Raybould gives examples from the works of more than sixty authorities who insisted that the mysteries of the divine should remain secret He then surveys the attempts of other religious and civic leaders both pagan and Christian to investigate understand and by contrast to share their findings on the nature of God In a final section he attempts to reconcile these opposing views **An Advertisement Touching a Holy War** ,2000 The Greek Ecclesiastical Historians of the First Six Centuries of the Christian Era ,1845 *Early Christian Thinkers* Paul Foster,2012-04-10 This book introduces twelve key Christians from the second and third centuries a formative period for the Church These figures are Justin Martyr Irenaeus Tatian Theophilus of Antioch Clement of Alexandria Tertullian Perpetua Origen Hippolytus Cyprian Gregory Thaumaturgos and Eusebius Each chapter is self contained and requires no preliminary knowledge of the figure under discussion making this an ideal book for laity and for undergraduates studying Christian origins or Patristics
