The Tudors in Love Sarah Gristwood,2022-12-13 Sarah Gristwood s *The Tudors in Love* offers a brilliant history of the Tudor dynasty showing how the rules of romantic courtly love irrevocably shaped the politics and international diplomacy of the period Why did Henry VIII marry six times Why did Anne Boleyn have to die Why did Elizabeth I s courtiers hail her as a goddess come to earth The dramas of courtly love have captivated centuries of readers and dreamers Yet too often they re dismissed as something existing only in books and song those old legends of King Arthur and chivalric fantasy Not so In this ground breaking history Sarah Gristwood reveals the way courtly love made and marred the Tudor dynasty From Henry VIII declaring himself as the loyal and most assured servant of Anne Boleyn to the poems lavished on Elizabeth I by her suitors the Tudors re enacted the roles of the devoted lovers and capricious mistresses first laid out in the romances of medieval literature *The Tudors in Love* dissects the codes of love desire and power unveiling romantic obsessions that have shaped the history of the world *The Love Trap* Emma Richmond,1995 Metagenealogy Alejandro Jodorowsky,Marianne Costa,2014-08-22 A practical guide to recognizing and overcoming the patterns and influences of the four generations before you Provides exercises to uncover your family s psychological heritage heal negative patterns of behavior and illness in your family tree and discover your true self Explains how we are the product of two forces repetition of familial patterns from the past and creation of new ideas from the Universal Consciousness of the future Interwoven with examples from Jodorowsky s own life and his work with the tarot psychoanalysis and psychomagic The family tree is not merely vital statistics about your ancestors It is an embodied sense of self that we inherit from at least four prior generations constituting both a life giving treasure and a deadly trap Each of us is both an heir of our lineage and a necessary variation that brings the family into new territory Are you doomed to repeat the patterns of your parents and grandparents Or can you harness your familial and individual talents to create your own destiny In *Metagenealogy* Alejandro Jodorowsky and Marianne Costa show how every individual is the product of two forces the imitating force directed by the family group acting from the past and the creative

force driven by the Universal Consciousness from the future Interweaving examples from Jodorowsky's own life and his work with the tarot psychoanalysis and psychomagic the authors provide exercises visualizations and meditations to discover your family's psychological heritage and open yourself to the growth and creativity of Universal Consciousness They reveal how identifying the patterns emotional programming and successes and failures of the four generations that influence you your siblings parents aunts uncles grandparents and great grandparents allows you to see beyond the stable identity formed by family lineage It frees you to overcome your inherited subconscious patterns of behavior and illness stop the transmission of these patterns to future generations and reconnect with your true self and unique creative purpose in life By understanding your family tree and your place in it you open your ability to heal the ancient struggle between the repetitive forces of the past and the creative forces of the future
