National Guard Bureau, 1970 The Media and Political Change in Southeast Asia Jonathan Woodier, 2009-01-01 the book is in a comprehensive readable format the book is logically organised rich in data and statistics regarding the issues that it covers as well as accessibly written such that its points would not be lost on the average upper level undergraduate student with some preparation in Asian studies and the social sciences Jane M Ferguson South East Asia Research a serious academic work that should be on the official reading list of every media studies course Chris Roberts Presenter Sky News Jonathan Woodier has written an excellent book on the politics of media control in Southeast Asia He shows how political elites in the region are using major events such as the 1997 Asian Financial Crisis and the 2001 September 11 terror attacks as well as innovations in media tools such as public relations and the internet to control information flow to their citizens This book is a must read for anyone interested in an explanation why Southeast Asian models of authoritarian models are surviving A brilliant analysis it combines media theory with a critical discussion of contemporary developments in Asia James Gomez Keio University Japan True to the old Chinese adage kill a chicken scare a monkey the few who once challenged Southeast Asia's ruling elites disappeared and the majority were silent Crude but effective Modern times however demand a more sophisticated approach Ruling elites now strip cultures naked and micro manage people's minds Their preferred tools of penetration and manipulation are a compliant media and a money hungry PR industry Jonathan Woodier's insights will ensure that you will never read a newspaper or watch TV news in quite the same way again Trevor Watson Professional Public Relations Pty Ltd Australia This is an engaging and informative analysis of the media landscape in South East Asia It uncovers the pervasive impact of the global media on the political process and raises important academic and policy issues in the process This book is timely and will be a must read for policymakers academics and students across communications media studies politics and democratization as well as for everyone with an interest in current day developments in South East Asia Joep Cornelissen Leeds University Business School UK Jonathan Woodier's latest work considers what impact the media has upon the democratization process in Southeast Asia Has the media had a liberalizing effect or become subject to elite control in Southeast Asia and if so why What role does the global media play in this process particularly given its conglomerization and commoditization By examining the communications media and its relationship to political change in Southeast Asia this fascinating study will endeavour to provide both a regional comparative analysis and a more balanced interpretation of the mass communication media in the wake of September 11 2001 The book also investigates the durability of authoritarian regimes and the enduring capacity of the media controlled state alongside the growing sophistication of political communications particularly the use of PR consultants The author provides an insider's view with unique insights into the practice of political communication and its development throughout the strategically

important region of Southeast Asia with its large Moslem states as well as much further afield to countries such as China and post industrial Europe As such the book will be warmly welcomed by academics of politics international relations media communications and PR It will also appeal to researchers interested in political change the rise of the global media giants and the influence of authoritarian states such as China

Taiwan and Southeast Asia Karl Chee Leong Lee,Ying-kit Chan,2023-06-16 Lee Chan and their contributors analyse the different kinds of soft power deployed by Taiwan in its bid to strengthen its relations with its neighbours in Southeast Asia Despite not having formal diplomatic relations with Southeast Asian countries after their diplomatic recognition of the People s Republic of China decades ago Taiwan continues to be a key economic and socio cultural partner for the region at large Successive administrations in Taiwan from the Chen to Tsai eras have circumvented the long standing absence of diplomatic recognition with the diffusion of soft power shaping what others want with attractiveness through the utilization of its existing economic and socio cultural links with Southeast Asian countries While such soft power diffusion contributes to Taiwan s triple quests for legitimacy as a member of international community status as a constructive actor in the region and long term economic prosperity for the island state the emergence of China as an economic superpower in the 21st century has significantly challenged such quests from Taipei The contributors to this volume examine both the intentions and the reception of Taiwan s approach to the nations of ASEAN An essential read for students and researchers investigating the impact and limitations of soft power in foreign policy
