Organization of the Judicial Branch ([slides](#))

The role of courts in society is to settle disputes. Instead of settling disputes based on who is more powerful or who has more money, we use the legal system. By using courts to settle disputes we uphold the **rule of law**. **Rule of law** is the principle that no individual, group, organization, or governmental entity is above the law and that laws are applied fairly.

The United States has what is called a [dual court system](#) (click link). This means there are both national and state courts. Cases begin at trial courts, where decisions on the facts of the case are made. When a party to a case is not happy with the outcome, they may be entitled to an appeal. Each state has an appeals court and a supreme court. The final court of appeal in all cases is the U.S. Supreme Court.
