*Motivation to Learn Multiple Languages in Japan* Chika Takahashi, 2022-11-22 This book provides rare insights into motivation among extremely successful learners of English and languages other than English LOTEs through the analysis of a longitudinal study and the examination of the factors involved in becoming multilingual in a non multilingual environment Based on sixteen interview sessions conducted over the course of nine years while the learners progressed from high school to the world of work this book offers the story of how two learners persist in English LOTE learning The study illuminates the long term processes through which the interviewees develop ideal English LOTE selves in an environment where multilingualism is not emphasized and where both English and LOTEs can still be described as foreign languages Educators and researchers will learn from this study which stretches our understanding of motivation beyond the recent theorizing of L2 motivation and contributes to the limited research in long term motivational trajectories and LOTE learning motivation which is particularly scarce in non European contexts The book will be of interest not only to readers in Japan but also to those in other contexts as it offers an example of successful learners who go beyond the pragmatic and instrumentalist view of language learning to hold a more holistic view thus revealing the factors which can sustain multiple language learning even in foreign language contexts

*Language Program Vitality in the United States* Emily Heidrich Uebel, Felix A. Kronenberg, Scott Sterling, 2023-11-09 The perception of a permanent enrollment crisis in US postsecondary foreign language education has shaped our profession s image for an entire generation of educators Over the past 30 years this crisis rarely invited self examination or inspired creativity Instead it was routinely attributed to external factors shrinking budgets unsympathetic administrators disengaged students This volume is refreshingly optimistic After providing a nuanced picture of the complex enrollment situation and focusing on perceptions of language education among undergraduate students the volume features an inspiring panorama of successful models that revitalized language programs at a wide range of institutions The diversity of approaches to post secondary language education in the United States featured in this volume highlights that there are no simple one size fits all solutions To be transformational initiatives need to be intimately calibrated to the evolving needs and desires of our institutions most
