Vise, Mark Malseed, 2005-11-15 The definitive bestselling account of the company that changed the way we work and live updated for the twentieth anniversary of Google's founding with analysis of its most recent bold moves to redefine the world and its even more ambitious plans for the future Moscow born Sergey Brin and Midwest born Larry Page dropped out of graduate school at Stanford University to as they said change the world through a powerful search engine that would organize every bit of information on the Web for free The Google Story takes you deep inside the company's wild ride from an idea that struggled for funding in 1998 to a firm that today rakes in billions in profits Based on scrupulous research and extraordinary access to Google this fast moving narrative reveals how an unorthodox management style and a culture of innovation enabled a search engine giant to shake up Madison Avenue clash with governments that accuse it of being a monopoly deploy self driving cars to forever change how we travel and launch high flying Internet balloons Unafraid of controversy Google is surging ahead with artificial intelligence that could cure diseases but also displace millions of people from their jobs testing the founders guiding mantra DON'T BE EVIL Praise for The Google Story The authors do a fine job of recounting Google's rapid rise and explaining its search business The New York Times An intriguing insider view of the Google culture Harvard Business Review An interesting read on a powerhouse company If you haven't read anything about one of today's most influential companies you should If you don't read The Google Story you're missing a few extra treats USA Today Fascinating meticulous never bogs down Houston Chronicle

Googled Ken Auletta, 2009-11-03 A revealing forward looking examination of the outsize influence Google has had on the changing media Landscape There are companies that create waves and those that ride or are drowned by them As only he can bestselling author Ken Auletta takes readers for a ride on the Google wave telling the story of how it formed and crashed into traditional media businesses from newspapers to books to television to movies to telephones to advertising to Microsoft With unprecedented access to Google's founders and executives as well as to those in media who are struggling to keep their heads above water Auletta reveals how the industry is being disrupted and redefined Using Google as a stand in for the digital revolution Auletta takes readers inside Google's closed door meetings and paints portraits of Google's notoriously

private founders Larry Page and Sergey Brin as well as those who work with and against them In his narrative Auletta provides the fullest account ever told of Google s rise shares the secret sauce of Google s success and shows why the worlds of new and old media often communicate as if residents of different planets Google engineers start from an assumption that the old ways of doing things can be improved and made more efficient an approach that has yielded remarkable results Google will generate about 20 billion in advertising revenues this year or more than the combined prime time ad revenues of CBS NBC ABC and FOX And with its ownership of YouTube and its mobile phone and other initiatives Google CEO Eric Schmidt tells Auletta his company is poised to become the world s first 100 billion media company Yet there are many obstacles that threaten Google s future and opposition from media companies and government regulators may be the least of these Google faces internal threats from its burgeoning size to losing focus to hubris In coming years Google s faith in mathematical formulas and in slide rule logic will be tested just as it has been on Wall Street Distilling the knowledge accrued from a career of covering the media Auletta will offer insights into what we know and don t know about what the future holds for the imperiled industry
