

A woman with curly brown hair, wearing a grey cardigan over a black top, is smiling and looking down at a glowing, golden-yellow crystal she is holding in her right hand. The crystal has a rough, natural texture. The background is a dimly lit room with a bookshelf filled with books, a large green plant, and a candle in a holder. The overall atmosphere is warm and spiritual.

The Healer Thirty Six:

The Healers Thomas Heric, 2010 It is the year 2021 Medicine has become corporatized and proprietary treatments are closely guarded secrets The mysterious Aesculapian Healers offer complete cures of most illnesses with a money back guarantee but the outrageous fees have given them a reputation as medical pirates When recent medical school graduate Wesley Anderson is approached to become a Healer he reluctantly signs on hoping to obtain a cure for his father's heart disease and a solution to his family's money troubles But he soon discovers that there are dark secrets behind the brilliant cures As Aesculapian practices become increasingly disturbing a conflicted Wesley torn between his conscience and the seduction of power joins a group of dissidents The atmosphere quickly becomes deadly as they uncover a plan involving human experimentation and realize that the lives of millions hang in the balance African Traditional Medicine DAVID OYEBOLA MD, 2020-02-10 This book is written to provide information on various aspects of Yoruba and indeed African traditional medicine The writer's research on Yoruba traditional medicine provides the bulk of the materials in the book The book consists of eleven chapters Chapters 1 and 2 provide the background to the book Chapters 3 to 10 encapsulate the different aspects of Yoruba traditional medicine such as classification of healers methods of training of healers methods of diagnosis and investigation of diseases treatment of diseases Yoruba pharmacopoeia midwifery bone setting and other forms of traditional surgery Chapter 11 describes the meeting point of hospitals and healers this meeting point in the opinion of the author should be how best to serve the interests of the patients The best form of relationship that should exist between hospitals and healers is also discussed The two systems of medicine exist side by side in Nigeria and most African countries yet remain functionally unrelated in any intentional sense It is argued that no medical system is perfect and no single care system has all the answers to all human health and related problems Each of the two systems has its strong and weak points The often talked about integration of the two systems has potential pitfalls and may be undesirable The book concludes that the best form of relationship may well be one of genuine cooperation and mutual respect between the two systems since this will lead in the ultimate to advancement of medical knowledge and overall improvement of patient care All levels of government in Nigeria have decisive roles to play in achieving this mutually beneficial cooperation of the two systems
