Race, Whiteness, and Education Zeus Leonardo, 2009-05-12 In the colorblind era of Post Civil Rights America race is often wrongly thought to be irrelevant or at best a problem of racist individuals rather than a systemic condition to be confronted Race Whiteness and Education interrupts this dangerous assumption by reaffirming a critical appreciation of the central role that race and racism still play in schools and society Author Zeus Leonardo's conceptual engagement of race and whiteness asks questions about its origins its maintenance and envisages its future This book does not simply rehearse exhausted ideas on the relationship among race class and education but instead offers new ways of understanding how multiple social relations interact with one another and of their impact in thinking about a more genuine sense of multiculturalism By asking fundamental questions about whiteness in schools and society Race Whiteness and Education goes to the heart of race relations and the common sense understandings that sustain it thus painting a clearer picture of the changing face of racism

The Aryan Race: Its Origins and Its Achievements Charles Morris, 2005-12-01 This general Aryan superiority is indicative of a highly active and capable intellect even though no one mind exercised a controlling influence The general mentality of the race the gross sum of Aryan thought and judgment must have guided the course of Aryan evolution and kept our forefathers from those side pits of stagnation into which all their competitors fell During its primitive era the Aryan race moved steadily forward unto a well devised system of organization which formed the basis of the great development of modern times from The Age of Philosophy What began in the late 19th century as a startlingly inept work of wishful thinking outrageous conjecture and bald racism masquerading as scholarship transformed itself in the late 20th century into a foundational work of neo Nazi philosophy Positing an heretofore and subsequently entirely unknown culture of Indo Europeans as the standard bearers of all human progress and initiative this 1888 work strings together a portrait of the Aryan race from carefully chosen scraps of religious political and social systems from across the Old World into a house of historical cards Useless as a guide to human cultural origins The Aryan Race is nevertheless essential reading for anyone hoping to understand the modern subculture of white supremacists and how they come by their extreme doctrines CHARLES MORRIS 1833 1922 also wrote A Manual of Classical Literature Aryan Sun Myths The Origin of Religion Heroes of Discovery in America and The San Francisco Calamity
