James's Will-To-Believe Doctrine

James C.S. Wernham, 1997-06-06 In 1896 William James published an essay entitled The Will to Believe in which he defended the legitimacy of religious faith against the attacks of such champions of scientific method as W K Clifford and Thomas Huxley James's work quickly became one of the most important writings in the philosophy of religious belief James Wernham analyses James's arguments discusses his relation to Pascal and Renouvier and considers the interpretations and misinterpretations of James's major critics Wernham shows convincingly that James was unaware of many destructive ambiguities in his own doctrines and arguments although clear and consistent in his view that our obligation to believe in

theism is not a moral but a prudential obligation a foolish not to believe doctrine rather than a not immoral to believe one Wernham also shows that the doctrine is best read as affirming the wisdom of gambling that God exists a notion which James failed to distinguish from believing and which among other things he explicitly identified with faith James s pragmatism a theory concerning the meaning of truth is shown to be quite distinct from the doctrine of The Will to Believe In concentrating on a careful analysis of this doctrine of the will to believe Wernham not only makes a major contribution to understanding James s philosophy but also clarifies issues in the philosophy of religion and in the analysis of belief and faith
