Wings to Fly Deepak Sharma, 2022-07-19 Wings to Fly beautifully illustrates that instead of constantly climbing the ladders of success sometimes we need to descend into the valley of truth and reality Especially for those facing the acute heat of poverty insecurity suffering disabilities and inabilities There is always an opportunity around us to sow the right seeds for the less beneficial people and weed out the superficial false and futile possessions All the compromises and sacrifices can be easily forgotten like a mother who bears all the pain while giving birth and raising her children Deepak found the true meaning and purpose of his life while serving the underprivileged children at Udayan Care He devoted his heart mind soul wealth and body to them as a full time volunteer and a guardian The book convinces one that each child is a lotus waiting to blossom They just need someone's support guidance care handholding and above all quality time The book intends to inspire one to make significant contributions to society nature and the universe in multiple ways Anyone can extend a hand of hope become eyes for the blind a voice for the mute clutches for the crippled destiny for the destitute and a lamp Deepak of light and hope for someone else True exuberance and contentment are found when we rise above ourselves and learn to live for others *Quality in School Education* Manju Narula, 2006 Over the years the Boards of Secondary Education have undergone a process of functional change from being examination Boards to Secondary Education Boards and finally to Boards of School Education This has resulted in many modifications in the working of the Boards Even then the Boards are facing many challenges The main challenge before the Boards are that there is a constant threat of knowledge getting obsolete day by day on the other the requirement for updating the existing facilities remains a financial challenge The Boards need to widen the sphere of their operations and increasingly support schools in undertaking innovative activities and in offering high quality education They need to adopt several measures for instance concerning academic guidance and

supervision preparation of quality teaching learning material adoption of progressive modes of evaluating students performance training of teachers principals and other personnel and evaluation of the performance of schools affiliated to them In addition revolutionary advancements in communications technology have broken the national boundaries As a consequence globalization has created several avenues and possibilities for educational sector Therefore there is exigency to see how Boards of Secondary Education are prepared for facing these challenges The Boards must think constantly about the ways and means to absorb the changes The present book deals with role of Boards in managing change and quality of Secondary Education in four states of India i e Himachal Pradesh Madhya Pradesh West Bengal and Andhra Pradesh
