The Home Rule Crisis 1912-14 Cork Studies In The Irish Revolution:

The Home Rule Crisis 1912-14 Gabriel Doherty, 2014-08-01 The Home Rule Bill passed by the British parliament in 1912 was due when it came into effect in 1914 to give Ireland some control over her own affairs for the first time since the Act of Union in 1800. However, this was postponed when the First World War broke out and by the time the war had ended, the political landscape in Ireland had changed irrevocably. The nationalist movement split into the followers of John Redmond, who chose to fight for the British in the war in the hope that their loyalty would be rewarded, and those on the other side who felt that this was just a delaying tactic and that England's difficulty was Ireland's opportunity. Meanwhile, the Unionists were violently opposed to any form of Irish self-government, believing that Home Rule is Rome Rule, and this led to the signing of the Ulster Covenant and the establishment of the Ulster Volunteers. The respected historians who have contributed to this book examine the reaction to the Home Rule Bill across many shades of political opinion across these islands and give a

fascinating analysis of what might have been if external events had not overtaken local ones. **The Cambridge History of Ireland: Volume 4, 1880 to the Present** Thomas Bartlett, 2018-02-28 This final volume in the Cambridge History of Ireland covers the period from the 1880s to the present. Based on the most recent and innovative scholarship and research, the many contributions from experts in their field offer detailed and fresh perspectives on key areas of Irish social, economic, religious, political, demographic, institutional, and cultural history. By situating the Irish story or stories as for much of these decades, two Irelands are in play in a variety of contexts: Irish and Anglo-Irish, but also European, Atlantic, and latterly global. The result is an insightful interpretation on the emergence and development of Ireland during these often turbulent decades. Copiously illustrated with special features on images of the Troubles and on Irish art and sculpture in the twentieth century, this volume will undoubtedly be hailed as a landmark publication by the most recent generation of historians of Ireland. **With the IRA**

in the Fight for Freedom: 1919 to the Truce Gabriel Doherty, 2030-01-01 *With the IRA in the Fight for Freedom* offers eyewitness and first-hand accounts of Ireland's struggle for independence in various parts of the country. It presents a representative picture of the fight by the IRA for independence and of the reign of terror endured by the civilian population. Only idealism and courage on the part of the freedom fighters and the steadfast support of the Irish people could have carried such an unequal struggle through to the end. With barracks attacks, ambushes, and shootings, it brings to life a conflict that is fading from the collective memory of county and country and offers a fascinating perspective on the struggle for independence directly from the men who took part in the actions themselves. **Imagining Ireland's Future, 1870-1914**

Pauline Collombier, 2023-01-25 This book attempts to delve into the connection between imagination and politics and examines the many expectations and fears engendered by the Irish Home Rule debate. More specifically, it assesses the ways politicians, artists, and writers in Ireland, Britain, and its empire imagined how self-government would work in Ireland after the restitution of an Irish parliament. What did Home Rulers want? What were British supporters of Irish self-government willing to

offer What did home rule mean not only to those who advocated it but also to those who opposed it **The Legacy of the Irish Parliamentary Party** Martin O'Donoghue,2019 The first detailed analysis of the legacy of the Irish Parliamentary Party in independent Ireland Providing statistical analysis of the extent of Irish Party heritage in each D il and Seanad in the period it analyses how party followers reacted to independence and examines the place of its leaders in public memory

Dividing Ireland Thomas Hennessey,2005-06-20 This text aims to provide an assessment of the First World War in Ireland and its consequences arguing that this is the key to understanding the complexities of the Irish nation today The author explores how the War transformed the nature of the Irish and Ulster

Ghosts of the Somme Jonathan Evershed,2018-05-30 Once assumed to be a driver or even cause of conflict commemoration during Ireland's Decade of

Centenaries came to occupy a central place in peacebuilding efforts. The inclusive and cross communal reorientation of commemoration particularly of the First World War has been widely heralded as signifying new forms of reconciliation and a greater maturity in relationships between Ireland and the UK and between Unionists and Nationalists in Northern Ireland. In this study Jonathan Evershed interrogates the particular and implicitly political claims about the nature of history memory and commemoration that define and sustain these assertions and explores some of the hidden and countervailing transcripts that underwrite and disrupt them. Drawing on two years of ethnographic fieldwork conducted in Belfast, Evershed explores Ulster Loyalist commemoration of the Battle of the Somme, its conflicted politics and its confrontation with official commemorative discourse and practice during the Decade of Centenaries. He investigates how and why the myriad social, political, cultural and economic changes that have defined postconflict Northern Ireland have been experienced by Loyalists as a culture war and how commemoration is the means by which they confront and challenge the perceived erosion of their identity. He reveals the ways in which this brings Loyalists into conflict not only with the politics of Irish Nationalism but with the peacebuilding state and crucially with each other. He demonstrates how commemoration works to reproduce the intracommunal conflicts that it claims to have overcome and interrogates its nuanced and perhaps counterintuitive function in conflict transformation.

From Political Violence to Negotiated Settlement Maurice Joseph Bric, John Coakley, 2004. The contemporary relevance of the issues raised is underscored in a contribution from the chair of the arms decommissioning body.

Unionists and Great War Commemoration in the North of Ireland 1914-1918 Catherine Switzer, 2007. The book is also relevant to the personal histories of many families in Northern Ireland. The inclusion of several individual stories within the text not only provides human interest but also underlines the extent to which the story of commemoration is often a very personal one.
